## About the Cover

### FERNBRIDGE, CA

Fernbridge, located in Ferndale on the Eel River is the last crossing before the Eel arrives at the Pacific Ocean. The bridge was built in 1911 and anchors Ferndale to California State Route 211. When built, it was named the "Queen of Bridges" and is still the longest, functional, poured concrete bridge in operation in the world. For over a hundred years, this iconic landmark has survived major floods, devastating earthquakes and other natural disasters. Fernbridge represents the strength of our community: rich in history and strong in character with a powerful resilience to endure any hardship.

## Letter from the Executive Director

Here at Humboldt Area Foundation, we have the opportunity to talk to thousands of people every year. We hear your stories, your dreams, your hopes, your struggles, your passions.

We have conversations with people who give back to our community, some because someone once helped them, others to remember a loved one. We hear from students who are able to attain the dream of higher education only because they received needed financial aid. We meet residents who are learning to have constructive conversations with their elected officials to make important changes in their neighborhoods.

The gifts you sent allowed us to make grants totaling over \$3 million this past fiscal year. You helped nearly two thousand worthy community organizations, gave out hundreds of college scholarships and hosted trainings and meetings for over 6,000 local residents.

From rebuilding the Arcata Fire House, to helping restore the Salt River ecosystem, from supporting cultural revitalization and dialogues around race and inclusion, to assisting in the building of the Eureka Dog Park, you have touched our communities in so many ways.

You are making the future of our region brighter. This is your story. We are simply the vehicle by which all of us come together and make a better tomorrow. On behalf of the board and staff of Humboldt Area Foundation, thank you. We look forward to continuing to serve our community and you in whatever way we can.

## HISTORY

Humboldt Area Foundation was established in 1972 by Vera Vietor with the donation of \$2.4 million and her home in Bayside. Over the years we have distributed over \$70 million in grants and scholarships while growing to over \$107 million in assets. Vera's vision and generosity has inspired more than 1,000 North Coast community members to enrich the quality of education, health, the arts, the environment, humane animal care and many other causes in our region.

# Who We Are

## WHAT IS A COMMUNITY FOUNDATION?

Community foundations serve a vital and unique role in a community. They encourage individuals, organizations and companies to fund important community activities where they live and work. They also support the community in working together to promote common goals. They issue grants to support activities which will have positive impacts on the lives of residents while bringing community members and leaders together to address social and regional challenges.

## WHAT WE DO

Humboldt Area Foundation is the community foundation of and for the citizens of the Humboldt, Trinity and Wild Rivers region. We promote and encourage generosity, leadership and inclusion to strengthen our communities.

We serve as a trusted partner with individuals and community groups to find solutions and seize opportunities to build on this region's strengths and assets.

# Addressing Access to Higher Education in Our Community

Our local economy is facing a shortage of graduates with advanced degrees to fill the jobs that are available in our community. Filling this void will be the key to whether the North Coast is able to compete and prosper in a 21st century economy.

Recent studies confirm that a college or career technical education remains the most important pathway to economic security and family success. Our statistics show us that only 43% of our local students attend college and less than 60% of those students will receive a degree or certificate at any level.

Humboldt Area Foundation has a long-standing commitment to higher education through the scholarships our community generously provides.

Humboldt Area Foundation, College Futures Foundation, Humboldt State University, College of the Redwoods and Humboldt County Office of Education are working together to stand behind this important community effort. We also need your help.

Please consider making an investment in our future generation through the **HAF Scholars' Fund**. This fund is dedicated to eliminating the financial barriers holding our students back from attaining a degree. With your support, we can change the narrative and strengthen the future of this community.

# Grants in Action

# Improving Our Communities' Economic Health

Humboldt Area Foundation has a commitment to improving our communities' economic health in order to help working families create pathways to economic success. Efforts began in the late 1990s to diversify our local economy, which resulted in the countywide adoption of *Prosperity!*, the North Coast Economic Development Strategy. The Foundation also has long been involved in efforts to improve high-speed Internet throughout the region.

The Foundation continues to engage with new initiatives to improve our local economy, including:

## LOCAL INVESTMENT

The Foundation has committed up to 3% of the long-term investment pool for local loans, usually partnering with agencies such as Arcata Economic Development Corporation and the Redwood Regional Economic Development Commission. Current projects include renovation of the Carson Block building in downtown Eureka, completion of the Raptor Exhibit at the Sequoia Park Zoo and the renovation of the Arcata and McKinleyville Fire Stations.

## HIGHWAY 299 BROADBAND INITIATIVE

The Foundation is partnering with California Center for Rural Policy and others to bring high-speed broadband across Highway 299 to those communities on the route. In addition, we are exploring an opportunity to bring an overseas fiber optic cable connection to the Humboldt Bay Harbor.

## HUMBOLDT MADE

When the County of Humboldt decided to divest itself of Humboldt Made in 2013, Redwood Coast Rural Action (RCRA) stepped up to help bridge Humboldt Made's transition to an independent entity. Humboldt Area Foundation served as the fiscal agent for this economic development consortium.

## REDWOOD COAST RURAL ACTION (RCRA)

RCRA, which operates under the umbrella of the Foundation, is leading efforts to assist the local manufacturing sector to create a local network and work in a more integrated fashion to better support each other.

The majority of this extraordinary Pioneer Class, as it came to be known, remained at Coastal Grove, under the guidance

of their teacher Carlotta Clark, until their eighth grade graduation in June 2011. By then, the school had grown to a full K-8 located on the former Bloomfield campus. Cottrell and Barbara G. Cottrell, and their Aunt Helen Cottrell Larson for their love and generosity. Funds were contributed by the estates of C. Graham Cottrell, deceased October 23, 2014, Carolyn Cottrell Willits, deceased January 12, 2012, Cynthia Cottrell Rees and a number of caring friends of Graham. This fund is stipulated for maintenance, interpretation, education, capital improvements and campground furniture such as bear boxes, picnic tables and fire rings. Donations to this fund go directly to our local State Park Sector and not to the general fund in Sacramento. ## YOUNG WOMEN IN TECHNOLOGY FUND

“The reason I started this Fund was to help inspire women in the field of technology here in Humboldt County. My daughter, Kiarra Speaker, left for SDSU after graduating from Arcata High, and I realized that even though I am a technologist, I did not really share any technology with her when she was in high school. I didn't want to unnecessarily influence her in finding her own way. However, when she got to college she chose the technology field and MIS. She is graduating this fall and was on the Dean's list for 4 years and recently completed an internship at Qualcomm. Ultimately what resonated with me from talking with her about her experience in college and at Qualcomm was simple. She told me there was no place, no real program in Humboldt County to learn about technology and that got me thinking we need to build this area's economy from the ground up. Like many others I believe it starts with education.”

– Jonathan Speaker  
Principal, COO at StreamGuys Inc.

The North Coast Honor Flight hub is supported by Rotary Club of Eureka and focuses on our local heroes. Top priority is given to senior veterans – World War II and Korean War survivors, along with other veterans who may be terminally ill.

Honor Flight is a powerful experience. Every part of the trip is dedicated to honor and thank our veterans. From water cannon salutes and news coverage, to police escorts, energetic standing ovations at the airports and letters from local youth and family members, this trip is unique and emotional.

For most of the veterans in attendance, this is the first and only opportunity they will ever have to visit their memorial sites at our nation's capitol. Stories from the front lines are exchanged, the deep past memories resurface and new special bonds are formed on Honor Flight.

In Humboldt County the first lodge was established in Eureka in 1858. In subsequent years, lodges flourished in Arcata, Blue Lake, Loleta, Fortuna, Ferndale, Hydesville and Rohnerville. The original directives to the members were, and continue to be, to visit the sick, relieve the distressed, bury the dead and educate the orphan. Over time these lodges have gone out of existence.

Maeve passed two days before her due date, on April 9, 2011, in the warm embrace of her mother's womb. Maeve's fund was made possible due to the generous donations of loving family and friends and was established to support the education of youth at Saint Bernard's School, the school Maeve would have attended. Davey suffered from a very rare cancer of the adrenal system. His family spent a lot of time going back and forth to San Francisco and felt they were fortunate that they could afford to do so. ## Giving as a Family Value

### THE SAUNDERS STORY

The Saunders family name is well-respected and admired. In Trinidad, it is legendary.

Otherwise known as “King of the Hill” or “Mr. Trinidad”, Glenn Saunders along with his wife Janis, spent life giving back to others and left a lasting legacy by donating land and funds for the Trinidad Museum, Trinidad Library and Saunders Park.

This year our community lost Glenn, a devoted husband, loving father and grandfather, friend and the kindest neighbor one could hope for.

Glenn lived a life of service. Each phase of his life was spent giving back in a different capacity. Glenn served in the Army, owned and operated Saunders Market in Trinidad for many years, served as the Mayor twice for the City of Trinidad, as well as Cemetery Commissioner and Water Commissioner. Glenn was one of the founding members of the Trinidad Volunteer Fire Department and the Greater Trinidad Chamber of Commerce, serving as Fire Chief and President of the Chamber. In addition, he was a member of the Arcata Masonic Lodge, Veterans of Foreign Wars, American Legion, Lions Club of Trinidad, Elks Club, Native Sons of the Golden West and the Ingomar Club.

Glenn and Janis' children, Steve, Larry and Gail, deeply value the life lessons their father instilled in them growing up. “He taught us to help people as much as we can, to give back and be kind. In short, do the right thing all the time.”

*Janis & Glenn Saunders*

The Saunders' home overlooks the beautiful city of Trinidad. Just outside the window, down the hill are the Trinidad Library and the Trinidad Museum, built on property Janis and Glenn graciously donated. Janis enjoys spending time reading and listening to music in town every Sunday. Gail lives down the road, serves on the Greater Trinidad Chamber of Commerce Board and manages the family business. Steve recently moved back to Trinidad and enjoys volunteering, especially in the town of Orick addressing food insecurity and Larry is recently retired after serving the County of Sacramento for 35 years in law enforcement.

The Saunders are an example of generational giving. Giving that is not only a choice, but a family value. They show up and participate in their community and most importantly, they model what is possible when the choice is made to put others above yourself.

This fund helps families caught in the tragedy of a missing or murdered love one to post rewards, which brings public attention to the case and a greater possibility of solving the crime. Providing for the type of work that Carole Sund would always support keeps all three "forever in our hearts." (1999)

# Building Healthy Communities

Del Norte County and Adjacent Tribal Lands

Building Healthy Communities (BHC) is a 10-year, community initiative launched by The California Endowment in 2010. The purpose of the initiative is to advance statewide policy, change the narrative and transform 14 communities in California most devastated by health inequities into places where all people have an opportunity to thrive.

## Change Happens Through:

### 1 CONNECTING Partners & Resources

BHC supports sustainable community power in connecting existing stakeholders and resources.

Eighty community partners came together for the 2015 Summer Youth Training Academy to work with youth exploring career paths. These partners taught career-related skills and worked together on hands-on community projects.

### 2 STRENGTHENING Relationships & Collaboration

Youth, schools, residents, nonprofits, government agencies and local businesses co-create their shared community visions through the Youth Strategy Team, the Opportunity Youth Initiative and the Community Food Council.

### 3 EMPOWERING Residents

BHC values the shared experiences of residents in Del Norte and Tribal Lands and continues to facilitate important conversations.

### 4 BUILDING Youth Confidence

BHC's goal is to empower future leaders through hands-on learning opportunities, giving them the confidence necessary to share their voice and get involved. Local youth supported a 2015 proclamation establishing Voter Education Week in Del Norte schools working with the Board of Supervisors and County Clerk.

### 5 LOVING Our Home

BHC provides the space necessary for healing and addressing community issues and working towards a sustainable solution to make our home a beautiful, safe, healthy community to live, work and raise a family.

YFR is the perfect venue for free educational programs on gardening, sustainable small-farm practices, foods, home-craft and natural resources conservation. With garden areas, fruit trees, pastures, barn, paddocks and farmhouse, YFR was deeded for community benefit and is guided by a volunteer board. It hosts an annual summer day camp, community plant and seed exchange, fiber and textile arts fair and free learning events for all ages. YFR serves the 4-H Youth Development Program with space for livestock, poultry and learning. Its ranch house is available for community groups, workshops and trainings. High School, was married for 24 years and had two children. She was a dedicated Christian mother who shared her belief in the virtues of motherhood with others. vehicles are too large to be housed in the current building. There is limited insulation in the winter and no air conditioning in the summer. Lewiston volunteers deserve a better building. (2005)

#### The Lee Montgomery Memorial Medical Scholarship Fund **\$18,210**

Lee Montgomery was a true native Californian, descended from pioneers. He was born in Petaluma in 1924 and raised in Hayfork. He attended high school in Berkeley, intending to become a doctor. World War II interfered with his plans to study medicine, but he never lost his interest in the sciences, nor his admiration for the

medical profession. After the war, Lee worked as a barber to put his wife, Marilouise, through college, then moved to Sonoma County. In 1964, he moved his family to Hayfork, which is where his heart was always. He cut hair in Hayfork for 30 years, a respected member of the community. In 1993, Lee died. He left his body to medical science. This scholarship fund is established in his memory to help a graduate of Hayfork High School pursue a career in the medical field. (2001)

#### Marilouise Montgomery Scholarship Fund **\$33,335**

Marilouise Montgomery met her husband Lee while attending U.C. Berkeley. She subsequently received her teaching credential from San Francisco State. Since 1947, she has spent a great deal of time in Trinity County, finally making it her home in 1965. This

endowment fund provides an annual scholarship to a graduate of Hayfork Valley High. Mrs. Montgomery said, "I am pleased that I can help Valley High graduates, having known several students there who have overcome great obstacles to pursue their education and obtain their goals in life." (2002)

#### Mountain Valley Youth Fund **\$31,067**

The Mountain Valley Youth Fund, an expendable fund within the Trinity Trust, was established to serve the health, educational and /or welfare needs of youth (from birth to age 18) who live within the Mountain Valley Unified School District. The fund was created with an initial gift from Barbara L. Stokely, a resident of Pebble

Beach, California. She has a son, daughter-in-law and two grandchildren who live in Hayfork, within the Mountain Valley Unified School District. Barbara holds a Ph.D. in Educational Psychology from USC. Before her retirement she was an educational psychologist and a marriage and family therapist. (1997)

#### Mountain Valley Youth Fund Endowment Fund **\$98,853**

The Mountain Valley Youth Endowment Fund was created in 1999 through two major gifts. An anonymous donor visited Hayfork and impressed by the urgency of the need and the efficiency of the already-established Mountain Valley Youth Fund, gave the first gift to create this endowment. Marion and Victor Payse, Barbara Stokely's

sister and brother-in-law, donated a matching gift of \$5,000. The idea of an endowment to ensure funds in perpetuity for needy children in the area appealed to the Paysees. They are both retired educators who over the years have contributed not only money but also their time, energies and talents to enhance the community where they live. Although they have no children of their own, they decided to help the children of Hayfork, knowing that the need was great. A significant anonymous contribution was made by a local resident. The fund has now reached a level that supports its annual budget. (1998)

#### Trinity County Historical Society Endowment Fund **\$38,895**

The Trinity County Historical Society Endowment Fund, managed by the Trinity Trust, is designed to financially support future projects of the Trinity County Historical Society. These projects preserve and disseminate the history of Trinity County through the J.J. Jackson

Museum, Hal Goodyear History Park, and Alice Jones History Center by procuring, preserving, displaying, and sharing artifacts, and information for the enrichment, enjoyment, and education of residents, tourists, and schoolchildren. (2014)

# THE HAYFORK COMMUNITY POOL IS SAVED!

### GATES FAMILY ENDOWMENT FUND

Many Hayfork community members rely on the Hayfork Community Pool. It is an essential resource for the rural community of roughly 2,300 citizens. Parents depend on the pool to teach their children important water safety skills, community members stay active with the exercise classes offered, families attend recreation hours together and youth look forward to summer camp each year. This year, the pool equipment failed and due to safety concerns, this town staple was going to be forced to close its doors during the warmest and busiest months of the year. The **Gates Family Endowment Fund** supported the restoration project of obtaining a new pool pump. As a result, over 1,400 citizens enjoyed splashing around this summer!

### Trinity County Library Benefit Fund

Two funds were established in 2004 in response to drastic reductions to the County library budget to ensure the survival of the three public libraries serving Trinity County. The funds are administered by a steering committee of the Trinity County Friends of the Library. Donations may be made to both funds. The library's immediate needs will be served by the Trinity County Library Benefit Fund. This fund includes regular contributions from library supporters and proceeds from fundraising benefits. Present unmet library needs, such as building the library's database and providing "on call" substitute staff to keep the libraries open, are being subsidized from this fund. The Friends continue to raise additional funds to spend directly on books, subscriptions, equipment and supplies. (2004)

### Trinity County Library Benefit Endowment Fund **\$20,690**

### Trinity High School Athletics Pledge for the Pack Fund **\$5,153**

This fund was created to enhance the athletic program offerings at Trinity High School while helping to offset the annual operating costs of the Athletic Department. Expenditures from the fund will be made for such items as athletic equipment and uniforms, officials' fees, tournament entry fees, and league dues. The fund will allow Trinity High School to continue to offer a wide variety of athletic programs, thereby serving a diverse population of students while fostering an environment that encourages individual growth, cooperation, and leadership. All donations will directly benefit the THS Athletic Department and the students it serves. (2009)

NEW

### Rich Velasquez Fund **\$21,337**

Rich Velasquez established this fund to promote athletics in Trinity County at the elementary school level with the intent to offer a young person a way to direct their energy in a positive manner. This fund will be used towards team sports and yoga, tumbling, gymnastics, and other alternative activities. Teams and individuals alike that may not have the means to be a participant are eligible for this fund. Rich believes all young people should have the opportunity to develop their physical abilities and also to experience what it is to be a team player. No one should be left out. (2014)

## Working to Create a Healthier Humboldt

# Union Labor Health Foundation

The Union Labor Health Foundation partners with Humboldt Area Foundation to improve the health and well-being of the residents and communities of Humboldt County. In 2014-2015 ULHF gave \$169,577 in grants.

### ULHF HISTORY

In Humboldt County in the 1900s, workers who were injured on the job found the costs of care at local private hospitals financially devastating. By 1906, the newly unionized timber and mill workers of Eureka decided to start a hospital of their own: General Hospital, a charitable, nonprofit organization in 1908.

In 1997, the Union Labor Hospital Association sold the hospital and established the Union Labor Health Foundation, which has since awarded \$3.5 million to support community health efforts through organizational grants, funding partnerships, nursing scholarships and assistance to individuals for health and dental care.

#### Union Labor Health Foundation (ULHF)

**\$5,306,876**

The mission of ULHF, a supporting organization of Humboldt Area Foundation, is to improve the health and well-being of the residents and communities of Humboldt County. The original Union Labor Hospital, later known as The General Hospital, was established in Eureka in 1906 as a charitable

nonprofit organization, by newly unionized timber and mill workers. After ninety years of service in the field, Union Labor Hospital Association established the Foundation in 1997 with proceeds from the sale of the hospital. The fund balance reflects the original endowment and contributions made to the Foundation by community members. (1997)

#### The Angel Fund

Donations made to this fund, which provides fast financial assistance to Humboldt County families for health and medical needs, are added to the Angel

Fund grant making budget, with 100% of the donation going directly into Angel Fund grants. The Angel Fund committee meets weekly to consider grant requests made on behalf of an individual or family. The Fund serves all ages, from infants to seniors. (1998)

#### The Dental Angel Fund

Donations made to this fund, which provides financial assistance to Humboldt County children up to the age of 19 for dental needs, are added to the Dental Angel Fund grant making budget, with 100% of the donation going directly into Dental Angel Fund grants. The Fund assists children that are in pain due to poor dental health, are uninsured or financially unable to obtain specific dental services or need to travel out of the area to obtain services not provided locally. (2002)

– Some donors requested not to display their fund balance.

#### The Ted Loring Angel Endowment Fund

**\$9,552**

In 2003 following the death of Dr. Ted Loring, a well respected and admired OB/GYN, his family established this fund to honor Dr. Loring's contributions to Union Labor Hospital and his vision of creating the Angel Fund. Donations go directly to the endowment. Each year 4.5% of the endowment is allocated to the Angel Fund program for distribution through grants to local individuals and families. (2003)

*“Thank you so much for making my road a little less bumpy in helping to finance my upcoming UCSF heart operation travel. It could not have been more helpful to receive these funds. Hopefully, the upcoming UCSF surgery will give me back my life. I will be forever grateful for the help of my Angel Funds. Please extend my sincere gratitude to all those who made this gift to me possible.”*

## In the last year, ULHF contributed to a number of programs that will open opportunities for people to live healthier lives.

### Strengthening Rural Families:

A group of proactive community members developed a new family resource center in Petrolia. The Center will provide children and families in the Mattole Valley greater access to programs, support and resources. With support from ULHF, the **Mattole Valley Resource Center** provides wellness programs for pregnant women, parents and children.

### Healthy Lives through Culture and Connection:

With support from ULHF, the **Indigenous Youth Foundation** worked to foster health and wellness in the Weitchpec area. Through cultural classes and events, young people, parents and elders have come together. They listen to traditional Yurok stories, learn and practice the Yurok language and participate in activities that encourage relationship building and healthy communication.

### Supporting Solutions at the Source: The Seeds of Understanding Speakers Collective

works to reduce stigma and discrimination of people living with mental health issues. ULHF supports their work of offering speaking engagements, facilitating dialogue and working towards policy changes that impact how those with mental health issues are treated by providers and institutions.

### Peer-Led Leadership to Cope with Chronic Pain:

Living with chronic pain can be debilitating. That's why ULHF has supported a unique **Peer-Led Leadership Program to Cope with Chronic Pain** to evolve their self-care and become successful managers of their conditions. Offered by Aligning Forces Humboldt at the California Center for Rural Policy, this program has given participants tools and techniques to make significant changes in their abilities to manage pain and stress.

It is the goal of the Fund to foster individual and community health and well-being through grants and scholarships.

### Big Time

In the spring of 2015, the Native Cultures Fund partnered with numerous Humboldt State University programs and departments, bringing traditional Native dancers and singers on campus to share their cultural knowledge at the 8th Annual Big Time & Social Gathering. Mr. Aguilar's work features the perseverance of California Native American cultures with images of Native veterans, traditional dancers, basket weavers and landscapes. The Native Cultures Fund also underwrote a traveling exhibition of prints from this book. An exhibit of photos opened at the Maidu Interpretive Center and was attended by over 150 community members. The exhibition will be mounted at the Goudi'ni Native American Arts Gallery at Humboldt State University from October 25 through December 24, 2015.

Engaging communities to solve problems most important to them, True North supports families, elders, youth, and individuals of diverse faith traditions, races, cultures and economic capacities working together for powerful change.

All of the work undertaken by True North is discovered through one-on-one conversations, is thoroughly researched and determined by leaders, not by staff or Board members. To accomplish this, True North operates by principles grounded in respect for the inherent dignity of every person.

*My name is Yulisa. I am a senior in high school. I went to the first True North meeting in Fortuna. I felt such strength and unity as I heard my people regain their voice and power. It was incredible to see that there are resources in my community for people like me. I realized that I am not alone in my struggles. I also realized that if I want justice, I must learn to speak up. We need to let people know that we are here to help them unite."*

*As a Yurok grandmother, I want the world to be an amazing place for my granddaughters to grow and to enjoy their lives. Working within True North gives me the knowledge and the process to find answers and to work within a system, that is sometimes broken, but to always believe in my heart that each person is trying their best."*

## About True North

In 2010 and 2011, HAF conducted listening campaigns. The results of those campaigns revealed that people in our community wanted better ways to productively engage in local decision-making. By 2012, HAF received a grant from The California Endowment's Building Healthy Communities Initiative. The grant allowed HAF to incubate the True North Organizing Network, to provide civic engagement training and to develop problem solving skills with populations that have not traditionally been engaged in policy change in their communities.

Sylvia Shaw, Eureka; Pastor Rueben Rodriguez, Eureka; Linda Lewis, Eureka; Reverend Kathryn Dunning, Eureka; Margo Robbins, Weitchpec; Ruby Reed, McKinleyville

## Providing Knowledge and Independence STUDENTS LEARN VALUABLE LIFE SKILLS THROUGH WOODWORKING

### INGERBRITSON ARTS AND RECREATION FUND

Students in grades 7 and 8 attending McKinleyville Middle School (MMS) have the opportunity to develop the unique skill set of woodworking. The MMS Woodworking Program is a 12-week class where students explore woodworking tools and their application while making a variety of wooden projects. This hands-on learning approach gives young people the freedom to express themselves artistically through creative design with each project they pursue. Students are exposed to local craft fairs, galleries and other events where they are able to display their artwork and develop important business skills. Not only does this dynamic program begin to prepare them for a future professional career path, it also equips them with the knowledge and independence to conduct personal home repairs.

## New Eureka Dog Park

# OUR 4-LEGGED FRIENDS HAVE A SAFE PLACE TO PLAY!

### HAF GRASSROOTS GRANTMAKING FUND

Five years ago a dedicated group of local volunteers decided Eureka needed a safe and convenient place to exercise their 4-legged friends. After several meetings, extensive planning and fundraising efforts, this vision became a reality this year in early March, 2015. Eureka Dog Park is the first and only off-leash dog park in Eureka. Fully fenced on 1½ acres at the corner of Watson and Walford Drives, the park

has proven to be an excellent resource to the community and a wonderful opportunity for local dog lovers, friends and neighbors to get together. Community members have donated their time in work days, provided toys and equipment for the dogs to play with, as well as furnished benches and more.

“The Eureka Dog Park is a tremendous blessing to our community. My husband and I take our golden retriever, Franklin, at least three times a week to interact with other dogs and spend some time off the leash.”

## AN OPPORTUNITY FOR CHILDREN TO LIVE SIMPLY WITH NATURE

### THE KUTTNER/MASON CAMP UNALAYEE SCHOLARSHIP FUND

At 6,400 ft., Camp Unalayee is nestled in a beautiful, alpine lake basin, surrounded by rugged peaks and saw-tooth ridges. Campers live in small groups along the creek, or by meadows in the woods near the lake. Camp Unalayee offers children a unique opportunity to live simply with nature and support what Kuttner and Mason were most passionate about: the space to allow children to discover themselves, explore their limits and learn what truly matters.

**The Kuttner/Mason Camp Unalayee Scholarship Fund** provides financial support to children from low-income urban households who wish to attend camp. Short-term and long-term financial goals are to cover one camper's costs per year and to grow a self-supporting endowment.

*Anyone interested in contributing to this Fund to send youth to camp can contact the Foundation at (707) 442-2993.*

# Board of Directors

## A LETTER FROM THE CHAIR

Dear Friends of Humboldt Area Foundation,

In 1972, Vera Vietor created a vision that has inspired us to fully engage in our communities. Thank you for entrusting your time, energy and resources with us. Your story is our story.

Through strong fiscal stewardship since 1972, assets of the Foundation have grown to over \$107 million and more than \$70 million in grants and scholarships have been awarded. Thanks to your generosity, those numbers continue to grow.

Community members have created more than 700 funds supporting the arts, cultural traditions, the environment, health, humane animal care and other important causes reflecting the passions, values and interests in our diverse communities.

The dedication and commitment of our current and prior Board members, staff and local volunteers has resulted in a healthy and vibrant foundation, well positioned to continue to do important philanthropic work in our community.

On behalf of the Board of Directors, I sincerely thank you for your commitment to Humboldt Area Foundation and your dedication to our community now and into the future.

Sincerely,  
  
Jon Sapper

# Remembering Ed Nilsen

A founding board member and selfless community servant who inspired us all.

Joan & Ed Nilsen

Ed Nilsen believed in service above self and always led by example. He was a family man, a businessman and a community servant. His humility, strong morals, quiet personality and fiery passion for people left a large mark on Humboldt County, the place he always called home.

Ed played a pivotal role in building, shaping and growing Humboldt Area Foundation. In 1972, after Vera Viotor established the Foundation through her trust, Ed was asked to serve on the Board of Directors. He took his responsibility seriously and held that commitment for over 25 years. The Foundation's trustworthy reputation, family friendly work environment, and leadership role in the community was defined in part thanks to Ed's can-do, inclusive attitude.

*His mission  
was to leave this  
world better  
than he found it.*

Although the community foundation world was brand new to Ed over forty years ago, he committed to becoming an expert through

hours upon hours of research. He asked the pertinent questions. He met with other foundations across the US and constantly challenged himself to learn more and to do more. In Ed's eyes, the learning process and growth was never complete, but rather always evolving. He was always listening and in full support of trying new things and testing the waters to evoke change and further progress.

In addition to serving on Humboldt Area Foundation's Board of Directors, Ed was a Rotarian President, a local business owner, an Eagle Scout, a Board member for the Union Labor Health Foundation, an active member of the Masonic Lodge #79, Ingomar Club and Redwood Shrine Club of Eureka.

When Ed wasn't working, he was enjoying quality time with his family. As a third generation Nilsen in Humboldt County, Ed and his wife Joan passed the family name down to their six children: Kim, Karen, Nancy, Matt, Mark and Jennifer. Ed's favorite pastimes with his family included long road trips, boating and waterskiing at Trinity Lake. If you ask Ed's children what life lessons they gleaned from their father they will say, "To put others before yourself. To always do the right thing and to stand up for what is right even if you're standing alone."

Ed was an avid fly fisherman and traveled all across the globe to fish in picturesque settings with his close friends, however his favorite place to fish was on the Klamath River. In the fall, Ed and Joan would jump in the car to chase the autumn leaves and changing colors. Again, among the many places in the states and worldwide they would visit, Humboldt was always calling them back home.

Ed gave so much of himself to others. His mission was to leave this world better than he found it. He did just that and then some. The Foundation is forever grateful for Ed's service to our community.

## Del Norte High School students test drive entrepreneurship

*The project has already grown into something we had never imagined.*

INVENTOR.

BY GILDARD H. HESS

*Gil Hess*

PATENTED FEB 27 1973

Thanks to the vision and generosity of Wild Rivers Community Foundation donors Gil and Ann Hess, Del Norte High School students can soon take a test drive in a car they built with their own hands.

Gil Hess, inventor of the airport baggage carousel, was a hands-on learner with an energetic passion for visionary thinking and entrepreneurialism.

Gil felt strongly about supporting students who may not shine in a traditional academic setting and chose to invest in local Del Norte youth through the **Gill & Ann Hess Memorial Fund**.

In September, when ten ambitious high schoolers from Del Norte High School's Career and Technical Education Department presented to a panel of community members and Wild Rivers Community Foundation requesting funding to purchase an electric car DIY kit from Switch Vehicles Inc., it was the perfect fit for the intention of the Hess' Fund.

"Gil and Ann Hess wanted their money to help students who were pursuing technical careers like computer-aided drafting or automotive technology," said advisor to the Hess Fund and WRCF Board member, Kevin Harwick.

The Switch Vehicle project will teach students the components and electrical functions that operate electric vehicles and why they are such an important piece of the future of transportation.

The project is led by Del Norte High School's Career and Technical Education instructors: Brett Lauble and Jeff Van Pelt, who worked together in the planning, development and training of the students. "I have been blown away by the students this year because these students are already thinking outside the box and thinking about how to improve the car and share the opportunity with others. The project has already grown into something we had never imagined," said Lauble.

According to the students, this project will help prepare them for careers as engineers, automotive technicians, motorcycle technicians, computer science engineers, electricians and technical career education instructors. "The project will provide us with real world skills and experiences not only with working with electric cars, but also working with a team," said Del Norte High School Junior, Spring Wilson.

The electric car will seat three and will travel up to 70mph. The students already have plans to modify and customize the car after it is built.

The car is estimated to be fully built by March 2016.

*For more information about this project please visit [delnorte.k12.ca.us](http://delnorte.k12.ca.us) or look for updates on the Wild Rivers Community Foundation Facebook page.*
