# Our Message to You

I arrived at Humboldt Area Foundation and took over my position as CEO in August 2019, shortly after the start of the new fiscal year. The board, staff, and I were excited about what lie ahead: creating a community-driven strategic plan, investing in systems and infrastructure, reassessing the best ways to support our entire region, and engaging with the many generous donors devoted to this special place.

We were making many positive strides toward a reinvigorated HAF and Wild Rivers Community Foundation, our affiliate in Crescent City, when COVID-19 began its first reach into California in March 2020. Like many of your businesses, schools, and organizations, we rapidly shifted course and were faced with a test as old as time: to adapt to the great uncertainty before us. In doing so, we also embraced an old adage: never let a crisis go to waste.

We mobilized our staff to reconnect with hundreds of people and organizations in the four counties we serve: Del Norte, Humboldt and Trinity in California, and Curry County Oregon. Our aim was to understand and respond to the needs of the most vulnerable with grants, technical assistance, and coordination across sectors. We raised record-breaking funds from national philanthropy and local donors. This could not have happened without the generosity and support of our local donors and fund holders. The yearbook is a testament to their commitment to this special place we all call 'home.'

During those first six months, thousands of hours and millions of dollars were invested in caring for our communities. Then, when the wildfires broke out, our rapid-response team mobilized once again to aid those who were evacuated, at health risk, or lost their homes. And again, we did it in partnership with philanthropy, donors and other community leaders.

While it was—and continues to be—a challenging time for all, the acute health and social inequity faced by people of color required us to recognize and respond to the disparities. We announced and began taking immediate action focused on eight commitments devoted to racial equity, safety and belonging.

Our model of response, service, equity, and deep connection with our most vulnerable was a pivot point for HAF and our affiliates. The multiple crises of 2020 gave us a renewed purpose and a platform for the future. In our new form, we will be ready to serve and stabilize our region in great times of need, as well as empowering our region to solve some of the deep, systemic challenges exposed during the past year. This vision for our—and YOUR—foundation, promises a stronger, healthier, more just recovery. It is a vision of us, in service together, for whatever may come our way.

## Race, Safety and Belonging

**Examining our roles. Identifying new voices.**

Galvanized by the murders of Josiah Lawson, George Floyd and too many others to mention, the leaders of the Humboldt Area Foundation, Wild Rivers Community Foundation, and Humboldt Health Foundation dedicated themselves to making significant changes. This work began by identifying people of color who are being left out of the conversation, and committing to engage their voices as we combat the systemic inequities connected to education, housing, health and local economies. Our actions are more important than our words, so we pledge to do even more, including:

- Providing a brave training and learning environment for anyone interested in learning about racism in its many forms.
- Increasing funding to Black, Brown, and minority-led organizations with general operating support in our region.
- Improving equity and representation on our boards and in our leadership teams, and evaluating how we embody our values and support People of Color in their professional path of choice.
- Helping support and facilitate local public sector policy-making, reform, training, leadership development, and accountability.
- Deepening how we use our local investment portfolio to capitalize organizations led by and in service of communities of color.
- Restructuring our organization so that our equity efforts are not peripheral, but embedded in our everyday work and decisions.
- Offering support and resources to our region's public organizations and institutions genuinely seeking to change their systems.
- Caring for our region's Children of Color by amplifying scholarships, internships, and training opportunities.

### **Craig & Lisa Hansen/Hansen's Insurance Scholarship: Championing the Trades**

Craig and Lisa Hansen support a strong local workforce where people are able to earn a good living as skilled mechanics, carpenters, truck drivers or members of other "blue collar" trades. Their fund provides scholarships to graduating seniors to attend trade school or vocational courses at two-year colleges and universities.

*"Our family has been blessed to live in this community all of our lives, and these scholarships allow us to give back the talented students shaping the community's future."*

**- CRAIG & LISA HANSEN**

### **Equity Alliance of the North Coast: Inspiring Change from the Inside Out**

More than five years ago, leaders across the North Coast recognized that too many of our community organizations were poorly equipped to serve the region's diversifying population. These leaders courageously acknowledged that they had not done enough to support the area's Latinx, Asian and indigenous residents. These conversations ultimately led to the creation of the Equity Alliance of the North Coast, a HAF initiative that addresses all dimensions of racial inequity—inspiring people, organizations and institutions to make positive change from the inside out. This year, the Alliance partnered with the Humboldt County Department of Health and Human Services—a public entity that provides essential services to over 35,000 Humboldt County residents each year—to ensure that the organization's 1,000+ staff members serve all Humboldt County residents.

## Astraia Pulliam Memorial Scholarship at St. Joes

Astraia Pulliam graduated from College of the Redwoods with a nursing degree in 2014. She went on to work at St. Joseph's Hospital, where she earned a reputation as a kind and dedicated nurse known for her bright red lipstick, and her dedication to the son she raised on her own. Following Astraia's death in 2018, her coworkers at St. Joe's established a scholarship to help single moms achieve their goal of becoming nurses.

## Community Loans: Investing Where Our Hearts Are

Humboldt Area Foundation has historically invested community donations in a broad range of stocks and bonds until they were reallocated to local grants. Several years ago, our leadership team asked a critical question: Can we put our money where our donors' hearts are, not just by giving funds, but by investing funds in our community? Those conversations led us to start setting aside 5 percent of our reserves for local loans to bolster critical businesses and economic development efforts, increasing local employment and in turn, preventing poverty. Since then we've loaned out more than \$7 million to local groups, earning returns that mirror or exceed those from our national bond portfolio.

In the wake of the COVID-19 pandemic, we quickly partnered with local lenders to allocate \$2 million from our endowment to fund 30 low-interest and zero-interest loans for nonprofits and small businesses waiting for federal funding. As our community continues to respond and recover from the impacts of the pandemic, we'll continue to identify innovative solutions that further the impact of our local investments.

## Ka'm-T'em Scholarship: Empowering Young Indigenous Leaders

Funded by donations through HAF and royalties from the book Ka'm-t'em: A Journey Toward Healing, scholarships are set aside for California's Indigenous students with the goal of protecting and advocating for Indigenous knowledge. The program's inaugural scholars are attending medical school, pursuing environmental studies, studying environmental resource engineering, and reviving the lost native language of Wailaki. ## Youth Engaged in Philanthropy: Addressing Childhood Trauma

In December of 2019, Youth Engaged in Philanthropy (YEP) awarded \$6,000 to South Fortuna Elementary School (now Linell K. Walker Elementary School) to support their new trauma-informed parent and teacher education project. YEP is a student-led group from Fortuna High School and Academy of the Redwoods interested in bringing positive change to the community through the power of grantmaking.

## Nick and Lisa Rail: Supporting Performing Arts

After donating 100 musical instruments to Del Norte County schools and retrofitting the stage lighting at Crescent Elk Middle School in 2020, Nick and Lisa Rail have planted the seed for a performing arts center at the high school by pledging \$1 million to get the project started. A successful California music retailer who attended Del Norte schools, Rail worked with his wife, Lisa, to establish a fund with Wild Rivers Community Foundation to ensure every child has an opportunity to play music.

## 3READ23: Increasing Literacy

Five years ago, a team of community partners in Del Norte County School District and Tribal Lands launched 3READ23, an initiative designed to ensure that all of the region's third-grade students can read at grade level by 2023. It starts with families having access to quality books, understanding the importance of reading every day, attending the right preschool or daycare, and having support for everyday challenges. In recent years, the team's efforts have: brought back a mobile library; introduced an early literacy program for non-educators; and distributed more than 800 "Ready for Kindergarten" backpacks filled with school supplies.

# COVID-19 Regional Response Fund

Humboldt Area Foundation (HAF) and our affiliate, Wild Rivers Community Foundation (WRCF), launched the COVID-19 Regional Response Fund to address the immediate and emerging needs of our region's most vulnerable residents—from mitigation to eventual recovery from the coronavirus pandemic.

The fund makes grants on a rolling basis to nonprofits, charitable organizations and public agencies across Trinity, Humboldt, Del Norte and Curry counties and has directed grants to date toward organizations serving first responders and healthcare providers; seniors; low-income families and youth; geographically isolated residents; disabled individuals and those with underlying conditions; veterans; resident facing housing or food insecurity; Native Americans and at-risk communities of color; and those with limited healthcare resources.

**\$3,247,953**

Amount raised from individual gifts, private foundations and philanthropic contributions as of June 30, 2020

**Although money and systems and logistics are important, this is all about people**—the people HAF & WRCF employs as staff, leaders, and volunteers; the people in our most vulnerable communities; the people our community has elected to positions of power; and the people in our schools, nonprofits, and community groups who have shown us a deep understanding of their community's needs.

**The word “emergency” contains the word “emerge,” and that’s no coincidence.**

In helping our community address the countless challenges of COVID-19, we’ve seen our community in a new light—learning things we could not have possibly known, and earning a deeper appreciation for things we already knew. Here are some of the themes that have emerged—and the lessons we’ve learned as a result.

**A good decision made quickly is better than a perfect decision made slowly.** HAF & WRCF adjusted our typical grantmaking process to move fast, entrusting our personal and professional networks to identify the greatest areas of need, and then entrusting our grantees to do what’s right with the funding they received.

**A clear process is important, but flexibility is vital.** HAF & WRCF sought unrestricted funding for the short-term to increase the options available to help those in need. We plan to continue the same approach into 2021 and beyond, while promising the same level of accountability and transparency we’ve always provided.

**17**

Number of staff members—roughly half of the organization—that comprised the CRT response team, which has connected with over 500 individuals and organizations to assess their needs, capacity, plans and challenges.

# COVID-19 Regional Response Fund

**It's not all about money—sometimes it's about knowledge and expertise.** HAF & WRCF convened a workshop with retired public-health professionals to help nonprofits learn how to provide essential services while reducing the risk of spreading disease.

**It's important to share stories of challenges and successes.** If you want people to make a difference, you need to provide them with accurate, up-to-date information. In rural regions, our newspapers and radio stations are lifelines to many and provide essential local context, so we shared our stories and, in many cases, extended grants to ensure that they could do their jobs effectively.

**The more connected communities are through personal relationships and cultural infrastructure, the better able they are to weather any storm.** Rural communities like ours often boast more tight-knit connections, and our Hmong, Lao, Native and Latinx neighbors proved that every day.

**\$1,274,882**

Funds disseminated to schools, nonprofits, tribes, and community organizations as of June 30, 2020—nearly three times the amount that HAF and WRCF would typically distribute in a similar time period

**This emergency is not over.** The pandemic isn't yet under control. Natural disasters here—and everywhere—are becoming more frequent, more deadly and more costly. And the impacts of these events will always hurt certain communities more than others. We must find ways to strengthen civic connections and promote smarter, more inclusive public policies for the next 25, 50, 100 years.

While many of the grants provided through the fund have been focused on addressing immediate needs, HAF & WRCF recognize the value of addressing larger, more systemic issues that have become even more evident throughout the pandemic. Here are just a few we are committed to tackling together into the future:

**Local Self-Sufficiency.** Although our coast is known for its farms, dairies and cattle ranches, the pandemic has made it incredibly difficult to process those goods and move them efficiently. HAF & WRCF have begun looking at possible solutions that might disrupt our dependency on external food-supply chains and find more ways to help our industries better serve our own residents—strengthening both in the process.

#### **Access to Information.**

At a time when information is lacking or, worse, misinformation is spread on social-media channels, we're supporting local journalism: HAF & WRCF created the Community Voices Coalition to elevate stories of the most vulnerable people, and invest in the long-term health of local media. The coalition, anchored by media

**106**

Number of grants administered across Del Norte, Humboldt, Trinity and Curry counties as of June 30, 2020

partners Access Humboldt and the North Coast Journal, has already generated multiple stories covering vulnerable and underrepresented communities, highlighting the pandemic's disproportionate impact on our Latinx community.

**Health-care Infrastructure.** The coronavirus exposed gaps in the number of health-care workers, the amount of equipment, and more broadly, emergency preparedness. Forced to delay non-urgent procedures, hospitals and clinics struggled to generate enough revenue to survive. HAF & WRCF have been investing in health-care infrastructure by focusing on health careers and supporting the university and community college with creating a nursing program.

# Donors

The impact of the **COVID-19 Regional Response Fund** would not have been possible without the immediate outpouring of gifts from the following donors and funders. In a time of financial uncertainty for many, the generosity seen in response to the pandemic reminds us of our shared values and our collective strength. This selfless dedication to supporting those in need gives us confidence that together we can continue building resilient and thriving communities no matter what may come our way. Reflects gifts received between March 1, 2020 and June 30, 2020.

## Curry Coastline Neighbors: Delivering for Our Seniors - \$7,000

Seniors are among the most vulnerable people during the coronavirus pandemic because of threats to their physical health and the isolation caused by shelter-in-place mandates. With support from the COVID-19 Regional Response Fund, the Curry Coastline Neighbors launched a free food and medicine delivery system to ensure that any seniors in need have access to all of life's necessities for the duration of the pandemic.

*"HAF's generosity enabled our nonprofit to waive membership fees, deliver more food, and make extra calls to combat isolation across our community. Thank you for being a light in the darkness."*

- COASTLINE NEIGHBORS

## The Karuk Tribe: Increasing Food Security & Resilience - \$20,000

The Karuk Tribe invested funds provided by the COVID-19 Regional Response Fund to start a farm to increase local food production to meet the greater need for food during the pandemic and provide valuable employment opportunities for its people. The farm's first harvest was deemed a huge success, providing enough food to support all tribal members in need.

*"... thanks to volunteer efforts and financial resources from HAF, we planted an amazing farm, and we hope to continue it for years to come."*

- CHOOK CHOOK HILLMAN

## Trinity Community Food Outreach: Responding to Unprecedented Levels of Need - \$25,000

Trinity County Food Outreach received funds to build an all-weather addition to its facility, so volunteers can prepare food for distribution without being exposed to the elements. The organization is now better equipped to serve as many as 3,000 people a month—a quarter of the county's population—in the wake of the economic downturn created by the pandemic.

*"With your generous donations and snow. Thank you."*

- JEFFRY ENGLAND, Food Bank Director

## Del Norte Mission Possible: Providing for the Homeless - \$20,000

Mission Possible is focused on developing solutions to address the growing homeless epidemic in Del Norte County. With support from the COVID-19 Regional Response Fund, the organization's director, Daphne Cortese-Lambert, has continued to meet the needs of a growing number of people experiencing homelessness, offering food, clothing, showers and essentials. And she takes every opportunity to forge relationships with the recipients so she can help them cope with deeper issues including drug use and domestic violence.

*"Everyone deserves a shower and a chance."*

- DAPHNE CORTES-LAMBERT, Mission Possible Director

# Native Cultures Fund

A vision of Northern California Native leaders in the 1990s, **the Native Cultures Fund (NCF) has supported more than 320 artists, culture bearers, and tribal researchers, granting over \$2.3 million to Native communities and individuals** for the preservation, revitalization and perpetuation of the rich indigenous cultures of California since 2002. Initiated and led by Native peoples, the Native Cultures Fund is a partnership between Native Nations, the Humboldt Area Foundation, the William and Flora Hewlett Foundation, and other donors.

## Our Approach

### Led by Native Peoples

All grant and scholarship decisions are made by committees of California Indian culture bearers from across the state, with committees changing each fall and spring. In addition, an Advisory Council of Indigenous California cultural leaders sets the ongoing strategies and priorities of the fund.

### Centered on California Indian Values

From how committees evaluate grant proposals to how we interact with funders and grantees, NCF's work is guided by core values of accountability, reciprocity, intergenerational relationships and cultural sovereignty.

## Our Work

### Funding

NCF provides grants to Native communities and individuals, often serving as a first gateway into philanthropy for our grantees because less than .04% of philanthropic dollars go to Native causes and organizations nationally, with an even smaller percentage supporting projects that focus on cultural sovereignty and the transmission of traditional values.

### Capacity & Field Building

NCF works to bolster the field of philanthropy, increasing the capacity of national and statewide philanthropic partners to better serve Native peoples through education, advocacy, collaborative funding, and coaching. Concurrently, NCF offers capacity building services to Native organizations through one-on-one consulting, grantwriting assistance, and networking opportunities.

2019 - 2020  
Grantmaking

**21 Grants**  
**\$124,708 awarded**

### Programs

In partnership with community leaders, NCF creates and sustains programming that offers culture bearers, language revivalists, and Native educators the space to build community, share best practices, and strengthen the cultural renaissance in California. NCF also creates programs to promote widespread understanding of Native cultures and history.

### Live Your Language Alliance: Inspiring Revitalization of Native Language

The Live Your Language Alliance was started in 2008 to help preserve and revitalize native language in Northern California. Since then, the Alliance has grown to encompass all of California, welcoming attendees from across the state to a biannual Indigenous Language Conference. The conferences have planted the seeds of inspiration for many language program activities and events, says Leo Canez, one of the founders and coordinators of LYLA.

# Native Cultures Fund

## Our Impact

Over the course of 2017-2019, NCF worked with Live Oak Consulting, a Native-led firm, to create an evaluation framework based on Native California values and best practices to assess the impact of seventeen years of grantmaking and program building. Through stories shared by over 100 former grantees and cultural leaders, we examined the ways our funding has met the needs of Native communities and the extent to which it has been aligned with their goals of self-determination and cultural reawakening.

- Increased comfort level in writing grants to other organizations.
- Created the opportunity to use NCF project success to leverage other grants.
- Fostered a sense of community cohesion.
- Supported increased use of media and other tools for outreach and education.
- Preserved knowledge of stories, art works, performances for future use.
- Encouraged a new generation of cultural teachers.
- Ensured preservation of sacred sites and archival materials about those places.
- Provided experiences that led to continued education for participants.
- Nurtured associations and connections that led to other projects and cultural healing.

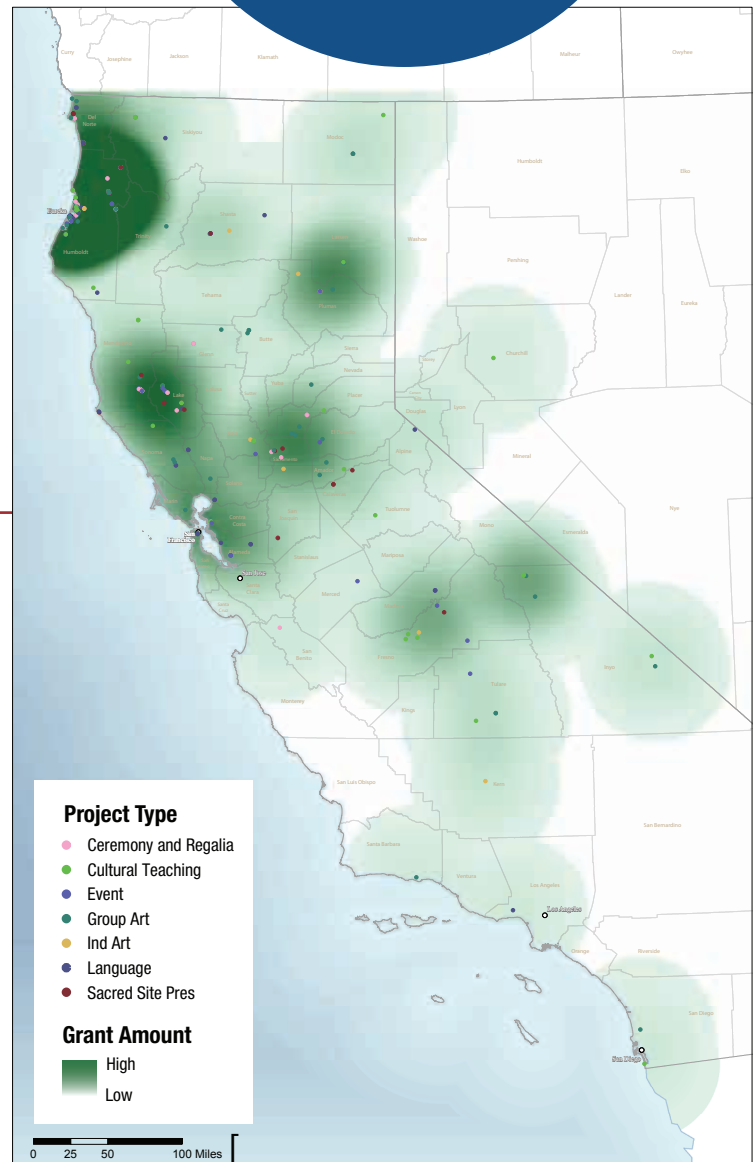

**70%+**

of participants in our 2018 evaluation believe NCF funding has had a lasting and sustained impact on cultural practice and knowledge.

## Our Reach

### Karuk Elk Film Project: Connecting Culture with the Natural World

With the support of NCF grants, Emilio Tripp has created a vision for a film that “communicates the cultural and ecological importance of elk to the Karuk people” and “instills in the community respect and compassion for all life in our natural world.” The film is currently in production and additional funds are being raised to support its completion.

A person in a red kayak is seen from behind, paddling on a body of water during sunset. The sun is low on the horizon, creating a warm, golden glow. The water is calm with gentle ripples. On the left, a concrete pier or dock structure is visible. The overall mood is peaceful and serene.

# Opportunity Funds

Help us respond to constantly shifting needs across our communities with funding that's nimble enough to capitalize on big opportunities.

## Don & Bettie Albright Endowment Fund

\$12,205

Don grew up in Fresno, CA. He enlisted in the marines, serving as flight engineer on a PBY. Upon his discharge he worked for PG&E for 43 years. Don was a mover and a shaker of the community, serving as president of Eureka Chamber of Commerce, United Way, Humboldt Economic Development and West Coast Alliance, as well as on the boards of Humboldt Area Foundation, Humboldt Taxpayers

League, City of Eureka Visitors & Convention Bureau, Eureka Historical Society, Boy Scouts, Ingomar Club, and as a member of Eureka Downtown Rotary, Northcoast Vintage Aviation, and Marine Corps League. Don & Bettie served together on the first jazz festival committee of Eureka. Don loved woodworking as a hobby. He was a devoted husband, father, grandfather, and great-grandfather. Don passed away on March 5, 2008. He and Bettie had a wonderful life together and wanted to share this discretionary fund with others. (2008)

## Laurence & Elaine Allen Memorial Fund

Eureka, the Aahmes Redwood Shrine of Eureka, the Arcata Kiwanis Club, the Ingomar Club, and the Baywood Country Club. Elaine Allen, born in Arcata, died in 1997 at the age of 92. She attended Arcata schools, graduating from Arcata High School. She was a member of Eastern Star and the First Presbyterian Church of Arcata. This is an unrestricted gift to the Foundation. (1999)

### Rayner C. & Winifred W. Burke Memorial Fund

\$51,491

Ray and Winnie Burke were active members of the Eureka community from their arrival in 1961 until their deaths, Ray in 1988 and Winnie in 1991. Ray participated in Kiwanis and Navy League, and Winnie was a member of American Association

of University Women, the Humane Society of Humboldt County, and the Humboldt County Historical Society. Grants from this unrestricted fund meet current and future needs of the community. (1992)

### John Ellis & Linda S. Burman Memorial Fund

\$63,578

John Ellis and Linda Burman were married 19 years when John was tragically killed in a car accident. Linda served on the St. Joseph Hospital Advisory Board, the boards of directors of the YWCA and the Senior Citizens

Foundation, and was active in other community activities. Linda left a portion of her estate to establish this endowment fund with income available for discretionary purposes. (1991)

### Bruce Cameron Memorial Fund

\$23,780

Bruce Cameron believed that "people should do good things for each other" and throughout his life, he lived that intention. An adventurer and sailor from the beginning, Bruce explored many parts of the world before settling in

Arcata. During his life he kayaked the Amazon, spent months in the Malaysian jungles as well as extensive time in Peru, hunting for a lost city. But more than an ordinary traveler, Bruce was foremost a humanitarian, helping to build a school and hospital on the remote islands of Tonga. The people there remembered Bruce years later and welcomed his boat as he pulled onto the beach with great celebration. Bruce passed away in 2009. Because Bruce loved his life, his home and family, and his natural surroundings, he demonstrated that love by making a last and lasting gift from his estate to support the work of the community through Humboldt Area Foundation. (2010)

### Dorothy Coeur Memorial Fund

\$23,822

(1988)

Dorothy K. Coeur impacted many people in her lifetime with her bright smile, warm heart and willingness to lend a helping hand to young and old alike. Income from this fund is available for humanitarian, cultural, educational, and charitable purposes.

### Helen Davis Memorial Fund

\$288,750

Helen was born on November 15, 1900, on a farm in Illinois. Her family later moved to the "wild west," a town called Round Up in Montana where she married Dave Davis in 1926. Eventually the couple found their

way to Arcata where Dave operated a barbershop and served on the city council. Helen became a Campfire Girls leader, inviting as many as 60 girls a week into her home. She also invited the boys who lived at the Presbyterian rooming house to her home for dinner once a month. At age 76, Helen began volunteering at the Presbyterian Thrift Shop, continuing until age 92. Declining health finally restricted Helen to her home where she died on June 2, 2003, leaving behind many grateful friends and admirers. Humboldt Area Foundation established this fund to thank and honor Helen for her gift to the Foundation. Grants will be made to a variety of charitable causes. (2004)

### Dorothy Egan Memorial Fund

\$827,537

Dorothy Mae Egan was born and raised in Scotia. Dorothy met and married Victor Egan. Together they built a home and settled in Eureka. Her greatest joy came from taking care of their home. If you were to walk by, you would

find Dorothy working tirelessly in her yard. It was Dorothy's wish that her estate be given to Humboldt Area Foundation to be used to benefit the people and needs of Humboldt County. (2010)

### Curtis Gillis Trust

\$110,407

A published author, songwriter, and musician, Curtis Gillis died in 1981, leaving the residual of his estate to Humboldt Area Foundation as a discretionary fund. A copy of his book, *Stories From Life*, is available at Humboldt Area Foundation. (1983)

### Ivy Erne Hughes & Carl G. Lundgren Fund

\$339,773

Ivy and her brother Carl were born in Eureka to Swedish immigrants. After their parents' early death, 13-year-old Carl left school to support himself and Ivy. Carl paid Ivy's tuition and was very proud when she

graduated from Humboldt State College in 1923. Ivy taught school in the Fortuna area for more than 40 years before retiring to travel, play bridge, and garden. Carl owned City Meat Market and then Redwood Meat Co. After his retirement in 1948 he moved to his ranch in Kneeland and then to Santa Barbara. He died in August 1981 and Ivy, in May 1996. The fund is unrestricted. (1997)

### Ingebritson Discretionary Fund

This remarkably generous and modest couple created a scholarship fund with Humboldt Area Foundation in 1989 during their lifetime together.

Later they left significant gifts to several local organizations from their estate, including a second fund with HAF to be used at the discretion of the Foundation's Board of Directors. Dr. Ingebritson died in 2000 and Mrs. Ingebritson died in 2006. (2007)

### William F. & Ruby M. Kennedy Fund

\$558,731

William "Bill" Kennedy grew up in Samoa where he rode a paddle-wheeler across Humboldt Bay every morning for school in Eureka. Bill graduated from Eureka High School, attended Armstrong Business College, and went

to work in Saudi Arabia for Standard Oil Company when oil fields were being pioneered. He served as a naval aviator for two tours during WWII. Ruby grew up in the Arcata bottoms and graduated from Arcata High School with a certificate of achievement in bookkeeping. She lived in San Francisco before moving back to Eureka and working as bookkeeper. Bill returned to Humboldt County, met Ruby, and they married in 1953. Together they established Kennedy's Office Supply that celebrated 43 years of business. Bill's lifelong interest in fly fishing and their mutual love of the outdoors took Bill and Ruby to many special places. This fund will be used at the Foundation's discretion. (2009)

## Humboldt Area Foundation Opportunity Fund

\$286,844

If the last year has taught us anything, it's that even the best-laid plans can't possibly anticipate what's to come—especially in growing, diverse communities like ours. We created the Opportunity Fund to provide our Board of Directors with the flexibility needed to respond quickly to local opportunities and changing needs as they arise. Every dime of these unrestricted funds is used to improve our economy, develop the next generation of leaders, and build our communities' capacity to advance equity and social justice. Find out how to make a gift to the Opportunity Fund at [hafoundation.org/opportunity](http://hafoundation.org/opportunity) (2016).

### Kokatat Fund

\$46,120

Kokatat has been manufacturing paddling gear in Arcata, California since 1971. At a time when many technical apparel brands were moving manufacturing offshore, Kokatat continued to invest in infrastructure in the US. Kokatat is proud of our contribution to the local Humboldt County economy. More than 90% of Kokatat's global sales are generated from apparel and accessories manufactured in Arcata, CA. This fund was established to promote the mission of Humboldt Area Foundation and to encourage discretionary giving to support strategic community work. (2011)

### Marian Coffman Larson Fund

\$53,743

Marian Coffman Larson, born in Jacksonville, TX in 1930, came to Humboldt County with her family as a young girl. She graduated from Humboldt State University with a BA degree and an elementary school teaching credential. Marian taught school in Humboldt County for 24 years, including 19 years in the Cutten Elementary School District. Marian devoted her time and efforts to the improvement of education of young elementary school students. She was a member of the California Teachers Association and the Eureka Church of Religious Science. Marian is survived by her husband, Garth Larson. The fund is used for discretionary purposes of the Foundation. (1998)

### Robert & Carol Lorensen Fund

\$229,211

Carol Lorensen, a resident of Humboldt County for nearly 50 years, retired from HSU as secretary to the vice president of university relations. Bob, a native of Eureka, retired as chief technologist of Humboldt Central Lab in 1991, having been employed by St. Joseph's Hospital for 50 years. Both Bob and Carol were graduates of HSU and together had eight children. Bob and Carol have made gifts including their life insurance policies, the death benefits of which support the needs of Humboldt County and give something back to the community from which they have received so much. Carol passed away on December 1, 2007. Robert passed away on July 9, 2018. (1993)

### Essie Mathews Memorial Fund

\$14,281

This unrestricted fund was established by the family of longtime Eureka resident Essie Mathews. Grants from this fund allow the Foundation to address a variety of community needs. (1992)

### Mary Virginia McIntosh-Mangham Memorial Fund

\$22,682

Mary, a second generation Eureka, was a resident of Oakland when she died in 1987. Her beloved husband, James Mangham, established this fund to benefit her native community. (1987)

### Morris-DeMotte Heritage Fund

\$89,725

This fund is a living memorial in perpetuity to William Loren DeMotte (1891–1957) and Jessie Belle Mastin Morris (1883–1964). The fund was established by Wava Ella DeMotte to celebrate their shared desire to lend a helping hand. Mrs. DeMotte died in 1991. The income from this fund is for discretionary purposes. (1986)

### James A. & Geneva Nealis Memorial Fund

\$139,924

Believing strongly that people should contribute actively to the community in which they live, the Nealis worked with many organizations and on many area projects. Geneva, who died in June 1996, established this fund to honor her husband James. (1990)

### Carl Nielsen Memorial Fund

\$163,985

Carl Nielsen, a lifelong Arcata resident, was a graduate of Arcata High and had a 43-year career with Seely & Titlow Company. From 1943 to 1946, he served in the army as an army engineer in France and the Philippines.

Carl's beloved mother, Emma, granddaughter of pioneer William Burrill (for whom Burrill Peak, near Weitchpec, is named), was the daughter of Hans Knudsen, whose family owned ranches at Orleans and Somes Bar. Carl spent a lot of time on these ranches, developing an avid interest in the history and customs of the early European settlers and his Indian forebears. He became known as an authority on those subjects, as well as a collector of artifacts from that period. He was recognized as an accomplished woodworker and gunsmith, specializing in early techniques. He was appreciated for his generosity in sharing his knowledge and skills. This is a discretionary fund. (1997)

### Sterling F. Paddock Memorial Fund

\$28,808

Sterling Fulmore Paddock was born at home in Eureka on April 11, 1910, weighing just over two pounds. His grandmother's wedding ring fit over his thigh. He was put in a shoe box in the woodstove warming oven, but he was

not expected to survive. He passed away 44 days before his 98th birthday on February 27, 2008. He spent his youth working on ranches in Humboldt and Siskiyou counties and enjoyed deer hunting, fishing, and collecting

rocks and petrified wood. Later in life, he helped local ranchers by taking care of animals, making wood, or house-sitting for them while they were on vacation. Sterling was a reliable, quiet, and private individual who lived in his own home until a brief stay at St. Luke Manor. In addition to other gifts to organizations he admired, Sterling left this fund to be spent at the discretion of HAF to meet local community needs. (2009)

### **Don F. & Fay M. Quinn Memorial Fund**

\$19,479

Don F. Quinn, a native of Eureka, was very active in the community. He had a positive attitude toward life and a sincere desire to help others. Born on October 4, 1920, he died July 29, 1983. Fund income is distributed at the

discretion of the Foundation's Board of Directors. Fay Quinn passed away on December 22, 1997. (1983)

### **James & Elva Shaw Memorial Fund**

\$63,397

James was born and raised in Kneeland and was a Eureka High School graduate. He was a WWI veteran, a member of the Army Corps of Engineers for 33 years, and a 60-year member of

the Arcata American Legion and Knights of Pythias. Elva Murray Shaw was raised in the Ft. Bragg area, and after marrying Jim, she was a schoolteacher for a number of years. This is a discretionary fund. (1993)

### **Julie Willows Memorial Fund**

\$586,488

Julie Mae Willows was born in Maine on June 17, 1912. After her father and sister died in 1918 during the flu epidemic, Julie moved to New York to live with her aunt, as her mother didn't have the means to raise four children.

Julie went to church with a neighbor and Christian Science became her way of life. Julie met Chet Willows and they married in 1935. Chet, an ex-marine, served in the air force in WWII. After the war, they opened a restaurant called Julie's in Carmichael, California. In 1959, they bought the Hartsook Inn in Piercy, enduring the 1964 flood and a fire. Julie was a member of the 1st Church of Christian Science and Soroptomist International of the Redwoods in Garberville. Chet died in 1973 and Julie operated the Hartsook Inn until 1984. She moved to Eureka in May 2009 and died March 7, 2011. (2011)

## **Vera & Lynn Vietor**

Founders of the  
Humboldt Area Foundation

In 1972, Vera Perrott Vietor founded the Humboldt Area Foundation, following the death of her husband Lynn Vietor. An avid bird watcher and nature lover, Vera passed away a few months later, leaving \$2.4 million in a bequest to the Foundation and her home as its office and headquarters. Nearly 50 years later, the home and surrounding property still serve as physical manifestations of the Vietors' lives while HAF has expanded from a small funder reliant on one benefactor to a robust organization fueled by thousands of local residents determined to make good on the Vietors' vision for a more prosperous region.

# Humboldt Area Foundation New Funds

The funds below were established between July 1, 2019 and June 30, 2020 by generous donors in our community who were inspired to make a difference. Stories told on these pages reflect their life's passions, love for their community and desire to make an impact while honoring their loved ones.

## COVID-19 Regional Response Fund

\$1,274,064

The COVID-19 Regional Response Fund will support urgent community needs identified by our regional partners. The fund will make grants on a rolling basis to nonprofits, charitable

organizations and public agencies meeting the immediate needs of residents in Trinity, Humboldt, Del Norte and Curry counties. The Fund's priority is vulnerable communities and the organizations that support them. Currently, this includes organizations and service providers serving first responders and healthcare providers; seniors; low-income families and youth; low-access residents; individuals with underlying conditions; disabled; veterans; homeless, housing or food insecure; Native Americans; at-risk communities of color; and those with limited or no healthcare resources. (2020)

## COVID-19 Technical Support Fund

\$250,000

Shutdowns resulting from the pandemic quickly generated a widespread need for technology tools, both software and hardware. From Chromebooks for students in low-income families to Zoom accounts for remote counseling sessions, technology appeared in nearly every grant request. In response, HAF has already issued four grants from the newly created COVID-19 Technology Fund, including one bulk order of 250 Chromebooks to be distributed in response to the community's evolving needs.

## Delia Scholarship

\$100,471

This scholarship, to be awarded for the first time in 2021, is for Humboldt County high school graduates or continuing college students who are studying poetry, creative writing or the visual arts. Priority is given to Indigenous/Native students and other students of color. (2019)

## Ron Duffy Fund in Memory of Wynston Ashley Jones

\$91,575

Ron's best friend Wynston of almost 50 years was diagnosed with kidney cancer and he needed a medical flight from Humboldt to the Stanford Medical Center in Palo Alto for treatment. He could

not afford the flight. He looked for financial assistance, but was unable to find any help. After Wynston died in the hospital, Ron made a promise to set up a fund to help others who are in a similar situation. Ron hoped that this fund will help in some small way people who need a medical flight from Humboldt County to medical facilities outside of the area. (2020)

## Fortuna Elementary School District Arts & Music Fund

\$10,317

This fund is to be used for programs, instruction, activities, or field trips that encourage, teach, or explore all areas of the arts: music, dance, drawing, painting,

writing and drama. All programs, instruction or field trips supported by this fund are for the enrichment of students enrolled in the Fortuna Elementary School District. These funds are to be used for students enrolled at Ambrosini Elementary, South Fortuna Elementary, Fortuna Middle School and Toddy Thomas Middle School. (2019)

## HAR Cares for Youth Program Fund

\$75

HAR Cares for Youth is a committee that was formed by the Humboldt Association of Realtors® in 2019 to assist the youth,

and families with youth in our community who are in need. Some of the projects that we are working on: 1) Help with back to school supplies and events (backpacks, school supplies, clothing, socks, underwear, jackets, shoes, & sports equipment for youth in need); 2) Holiday meals for families with youth (currently we plan to support two families with this program); 3) Welcome home boxes (we plan to support families with youth who have been homeless and are moving into their first home); 4) Many more projects as requests from the community come in and our funding allows! (2019)

## Humboldt Indoor Team Sports Center Fund

\$515

This HITS Center fund will provide a new spacious indoor and outdoor facility and programs focused on student and community support.

This safe and healthy environment will have over ten sport courts, classrooms, meeting spaces inside and out backing our mission “to improve mental and physical health in our community.” The HITS Center’s diverse and dynamic space will meet the goals and challenges of our community for years to come. (2019)

## Roy & Billie Johnson Endowment Fund

\$2,072,160

This fund was established with the estate of Billie Hemisphere Johnson, born in June 1917 and passed away in January

2019. Billie was a commercial fisherwoman by trade with an incredibly strong will who weathered life’s storms with seeming ease. Billie sought a good challenge, illustrated in later life by her preference for blackjack over slots during her relished trips to Blue Lake Casino. She loved a good joke, and if one didn’t have a sense of humor, Billie tended to be uninterested. She was a self-professed “trouble-maker”. That said, Billie harbored a kind and compassionate soul. The purpose of the fund is to provide for: care for the sick and dying; protection, well-being, and enjoyment of senior citizens in Humboldt County; care for children with neuromusculoskeletal conditions, burn injuries, and other special healthcare needs; and understanding and treatment of childhood cancer and other life-threatening diseases. Human trafficking is a particularly insidious crime that has profound negative effects on the health and well-being of its survivors and the community. The clandestine subculture of Humboldt County creates a communication gap between citizens and law enforcement, leaving many community members vulnerable. The UN definition of human trafficking is "the recruitment, transportation, transfer, harboring, or receipt of persons by improper means for an improper purpose including forced labor or sexual exploitation." The Humboldt County Human Rights Commission (HCHRC) asserts that there is a great need for documenting information on local human trafficking issues to assist our policymakers, law enforcement, and community members in finding real solutions around our local human trafficking issues. Any Humboldt County nonprofit, nongovernmental organization, or municipality working on gathering information on human trafficking may apply for this fund. Please email [hrh@co.humboldt.ca.us](mailto:hrh@co.humboldt.ca.us) for more information. The fund welcomes donations from concerned community members at [www.hafoundation.org/HCHRCHumanTrafficking](http://www.hafoundation.org/HCHRCHumanTrafficking). (2018)

### Humboldt-Del Norte County Medical Society Future Physicians Scholarship Fund

The Humboldt-Del Norte County Medical Society, a component of the California Medical Association, was founded in 1886 to represent physicians on the North Coast. The purposes of the

Society are to promote the science and art of medicine, the care and well-being of patients, the protections of the public health, and the interests of the medical profession; to cooperate with other organizations of like purposes; and to unite with similar societies in the state of California as component societies of the California Medical Association. Humboldt and Del Norte counties have always faced issues with recruitment and retention, and the Society is committed to programs that help develop pipelines for future physicians interested in living and working in our beautiful area. We are hoping to build this fund into an endowment to make it sustainable for the future. ## Klamath Communities Fund

\$42,254

Degradation of the Klamath River by four dams and water usage conflicts have created a health crisis for all Native communities along the river, severely damaging both fishery and farming economies and eroding the environmental health of the Klamath Basin. A remarkable agreement has been reached to remove the four dams below Klamath Lake and balance water use between

fisheries and farms. Developed and signed onto by the three Klamath River Tribes, farmers, commercial fishermen, environmental groups, the states of Oregon and California, and federal agencies, the Klamath Basin Restoration Agreement (KBRA) will improve health of the communities, economies, and environment. Funds are needed for the Klamath River Coalition to make the agreement a reality. (2011)

## Klamath Riverkeeper Fund

The organization's campaign goals are to undam the Klamath River by 2020, restore water flow levels in the Klamath River and its tributaries, and prevent water pollution. Klamath Riverkeeper pursues these goals through policy advocacy, grassroots organizing, public education, and as a last resort, litigation. Klamath Riverkeeper's unique strategy ensures that resource management decisions are guided by sound science and key public-interest laws. ### North Coast Cultural Trust

\$7,408

North Coast Cultural Trust's (NCCT) goal is to support broader public participation in, and stability for, the already thriving North Coast arts and humanities. NCCT is truly a collaboration among North

Coast donors, artists, cultural organizations, and community groups. To date, nearly a million dollars has been committed to the trust by local donors and the Lila Wallace-Reader's Digest Fund. Robert Yarber, Loleta resident and arts advocate, made a \$10,000 donation to establish the trust. Yarber moved to the North Coast in 1969 and in 1973 became artist Morris Graves' assistant. "It is a betterment of our own well-being and the community's well-being to support the arts. A strong arts community is very subtle in shaping people's lives and a community. It enables us to see the world and ourselves in a deeper and broader perspective," comments Yarber. (1998)

### Northcoast Environmental Center Endowment Fund

\$7,074

The Northcoast Environmental Center (founded in 1970) established this endowment fund to ensure the grassroots organization's continuing ability to pursue its mission to

### North Coast Environmental History Resource Recovery & Preservation Fund

\$556

From the 1990s through 2004, hundreds of northwest California citizens protested destructive logging practices and urged regulatory agencies to promote more

sustainable forest management policies. Several activists video-documented the controversial logging practices, the resultant protest activities, the evidence-gathering efforts, and the testimony given at hearings. Now this

video work, both the original and edited footage, is the subject of great concern due to damage from mold and the deterioration of the original tapes. The North Coast Environmental History Resource Recovery and Preservation Fund was created to raise funds for the digitization of more than 700 videotapes in the Humboldt Watershed Council Video Collection. The vision for the North Coast Environmental History Resource Recovery and Preservation Fund extends beyond the immediate need of the Humboldt Watershed Council Video Collection and will enable future preservation efforts for materials that tell the region's important, but too often neglected, environmental history. (2013)

For more than 20 years she and her partner Lan Sing Wu visited Redwoods Monastery, first simply as retreat participants, but gradually, as they recognized this as a group of women for whom they cared deeply, became strong contributors. They worked in the garden and cooked meals for the sisters, set up a small first aid clinic, and provided blood pressure check-ups, exchanged books, and created close friendships that are still treasured today, years after Ros's death in 2000. ## Six Rivers Reproductive Health Fund

In 1975, to the great benefit of  
individuals seeking reproductive  
healthcare and those who support  
access to care, Michele McKeegan and  
Judy Webb founded Six Rivers Planned  
Parenthood. Through the efforts of  
hundreds of dedicated staff, volunteers,  
and donors, Six Rivers Planned

Parenthood provided reproductive healthcare, including  
education and advocacy, to the residents of Humboldt,  
Del Norte, and Trinity counties for almost 40 years. Six  
Rivers Reproductive Health Fund is established to ensure  
continued access to reproductive and sexual healthcare  
for all, to educate about healthy, responsible sexual  
behavior and reproductive choice, and to advocate for the  
passage of laws and policies that guarantee reproductive  
freedom and availability of abortion services to Humboldt,  
Del Norte, and Trinity County residents. The fund was  
initially funded with the assets remaining from the former  
Six Rivers Planned Parenthood. (2015)

## Brian & Tim Smith Memorial Fund

\$10,959

Brian and Tim Smith were  
natives of Humboldt County  
who perished on the Trinity  
River at Madden Creek on  
July 22, 2006. Both gave  
their lives to save the life of Tim's young son Asa. Brian  
ultimately pulled Asa most of the way to shore and then  
went back in an attempt to save his brother. As a result of  
Brian's heroic act he was awarded the Carnegie Hero  
Medal. Brian and Tim's mother Linda Livasy, with the  
support of Tim's wife Addie Segura, decided to use the  
award money to start this fund to support high school  
graduates who have suffered the loss of a parent. The  
Smith family recognizes how difficult it can be to raise  
children with one parent, especially supporting those

children through college, and hopes others will recognize  
the need to support single parent graduates and join in  
feeling that "we can't do it alone." (2008)

### "Davey" Somerville Revolving Travel Fund

\$14,284

Davey, age 10, the joy of his parents' life together, was a very bright child and liked by all who had contact with him. He especially liked playing with his friends and he enjoyed baseball, soccer,

basketball, building Lego structures, and reading books of many kinds. He also enjoyed travels to many places, particularly to Hawaii. But his greatest delight was computers. Even in the hospital in San Francisco when he had become very weak, he would spend a little time with a laptop computer. Davey suffered from a very rare cancer of the adrenal system. His family spent a lot of time going back and forth to San Francisco and felt they were fortunate that they could afford to do so. While there are family houses for families of severely ill children, often the travel costs are a big burden on the families. This fund is to help defray some of the cost of travel for these families. (1999)

### Henry & Myrna Sorensen Family Fund

\$45,512

Henry and Myrna Sorensen owned and operated a dairy and chicken ranch in McKinleyville, CA. They were both born in Arcata and lived in McKinleyville their entire married life, except for Henry's service in the U.S. Army during WWII, where

he served as an engineer and road foreman of engines in Europe, and for Myrna's work with the Army Corps of Engineers and the department of the navy. Henry moved to McKinleyville in 1920. Myrna's family (St. Louis) lived in Arcata. Henry and Myrna had an ardent appreciation and commitment to preserving the area's rich history. Henry was a lifelong historian of local railroad history, co-authoring a book entitled Steam in the Redwoods. He restored the Mattole Lumber Company No. 1 to running

### Sorensen Family Fund

\$12,055

The Sorensen Family Fund was established by Jan Sorensen to help with the maintenance of the Old Red Schoolhouse located on the Humboldt

County Fairgrounds, as well as to help graduating seniors at McKinleyville High School through the Grandma and Grandpa's Club. Jan was born and raised in Arcata and taught at South Bay School in Eureka for 33 years. This fund was established in honor of Jan's late husband Jim. Jim's many interests included local history, and he loved visiting the Red Schoolhouse during fair time to meet with the retired teachers for conversation and time to reminisce. Jan's hope is the Red Schoolhouse will remain an important stopping place for fair visitors for many years to come, just as Jim would have wanted. The Red Schoolhouse is full of rich history and cherished moments in time. Jan's hope is this fund will also complement the great work of the Grandma and Grandpa's Club, enabling them to present more scholarships in the future. (2016)

\$1,054,578

### Amos Tripp Native Leadership Fund

\$28,364

Humboldt Area Foundation established the Amos Tripp Native Leadership Fund to support leadership in the Native communities of Humboldt, Trinity, and Del Norte counties. Amos Tripp

was a lawyer, director of United Indian Health Services, Karuk Tribal Councilperson, as well as a respected maker and caretaker of regalia, and dance leader for the Karuk Brushdance Camp. The values that he practiced at ceremony were the same values he lived in all parts of his life and shared widely with family and community. Amos believed that language revitalization, cultural arts (weaving, traditional food preparation, hunting/fishing, regalia making), and cultural ceremonies serve as important steps in rebuilding the resilience and cultural healing that lead to a healthier community. This fund will provide grants to support the development of new leaders working to reclaim their cultural heritage, heal historical wounds, and build pathways toward health and wellness for future generations. Through the design and implementation of site-specific management plans they facilitate an approach for the community to become better land stewards. In business plan and process, through education and resource sharing, from the generosity of their clients—cannabis farmers—the Watershed Fund was born. ## Gates Family Endowment Fund

\$1,745,963

This is a component fund of the Trinity Trust, established as a testamentary gift from the estate of Helen J. Gates who passed away on October 24, 2002. Helen, along with her two children, Hank and Joan, was a graduate of UC Berkeley. Her father was a self-made mining engineer. He began

working at a young age, and he walked several miles each way—saving street car fare—to work at the Union Iron Works in San Francisco. He also knew future president Herbert Hoover in his mining days. Helen visited the Trinity Alps as much as she could in the 1920s and 1930s. Gilbert F. left UC Berkeley early to work and support his family. The fund supports charitable organizations in and for Trinity County in accordance with the spirit and the wording of prior planned gifts arranged by the Gates family. The Trinity Trust Steering Committee makes all funding recommendations for this discretionary fund. (2003)

Initial endowment gifts were contributed by reflective, good-hearted, and thoughtful individuals, families, businesses, community advocacy groups, and service organizations. The Weaverville Cemeteries Endowment will annually and in perpetuity provide funding for such purposes as replacement of deteriorating headstones, maintenance, care and beautification of public cemetery areas, and education of the community regarding the cemeteries' pioneer history. (2007)

## Young Family Trust

\$985,495

The Young Family Trust honors the Young family heritage with roots deep in Trinity County history. The Trust supports the work of the Young Family Ranch (YFR), a 3-acre community-trust farmstead in the heart of Weaverville's historic district. YFR is the perfect venue for free educational programs on gardening, sustainable small-farm practices, foods, home-craft, and natural resources conservation. With garden areas, fruit trees, pastures, barn, paddocks, and a farmhouse, YFR was deeded for community benefit and is guided by a volunteer board. It hosts an annual summer day camp, community plant and seed exchange, fiber and textile arts fair, and free learning events for all ages. YFR serves the 4-H Youth Development Program with space for livestock, poultry, and learning. Its ranch house is available for community groups, workshops, and trainings. Proximity to Weaverville Community Forest and the trail system add to YFR's appeal as a learning center. (2001)

and is the heart of the community. The fund is intended to give a significant financial boost to any student who has been through the school, has graduated high school or has a GED, and is interested in continuing their education through college or trade school. Participation in community is as important as academic achievement. The fund's goal is for children to be able to pursue a career and function successfully in whatever community they reside. (2015)

### Sarah Ingersoll Memorial Scholarship \$4,501

This fund was established in loving memory of Sarah Rosalie Ingersoll who died in August of 1999 while backpacking in the Yolla Bolly Wilderness Area. Sarah was a lifelong

resident of Hayfork in Trinity County. She had a love for the natural beauty of Trinity County and for the people who live there. Sarah graduated from Hayfork High School, was married for 24 years, and had two children. She was a dedicated Christian mother who shared her belief in the virtues of motherhood with others. Her passion for the arts, as expressed through her photography, was known in Trinity County and beyond. The Sarah Ingersoll Memorial Scholarship was established to encourage students of the Mountain Valley Unified School District to pursue their passion for the arts in an accredited arts program. (1999)

### Sally Johannsen Advanced Health Scholarship Fund

\$18,538

Sally Johannsen has been an active member of the Trinity County community since 1970. She left her original career as a nurse to devote her life to raising her family and running Cedar Stock

Resort with her husband Cliff. However, caring for others' health is simply a part of who she is, and although she was not able to practice as a nurse again, her caring support is felt by all who know her. Over the years she has become interested in alternative healthcare options available. This fund was established by her loving family as a tribute to the many lives she has cared for throughout her life and the amazing woman she has become. We look forward to her participation in this fund and her continued excitement to support others willing to dedicate their lives to healing in alternative ways. (2015)

### Marilouise Montgomery Scholarship Fund \$38,866

spent a great deal of time in Trinity County, finally making it her home in 1965. This endowment fund provides an annual scholarship to a graduate of Hayfork Valley High. ### Mountain Valley Youth Fund \$39,773

The Mountain Valley Youth Fund, an expendable fund within the Trinity Trust, was established with an initial gift from Barbara L. Stokely, a late resident of Pebble Beach, CA, to serve the health, educational, and/or welfare needs of youth from birth to age 18 who live within the Mountain Valley Unified

School District. She has a son, a daughter-in-law, and two grandchildren who formerly lived in Hayfork, within the school district. Barbara held a PhD in educational psychology from USC. Before her retirement she was an educational psychologist and a marriage and family therapist. (1997)

### Mountain Valley Youth Endowment Fund \$119,843

The Mountain Valley Youth Endowment Fund was created through two major gifts. An anonymous donor visited Hayfork

and, impressed by the urgency of the need and the efficiency of the already-established Mountain Valley Youth Fund, gave the first gift to create this endowment. Marion and the late Victor Payse, Barbara Stokely's sister and brother-in-law, donated a matching gift of \$5,000. The idea of an endowment to ensure funds in perpetuity for needy children in the area appealed to the Payeses. They are both retired educators who have contributed not only money over the years, but also their time, energies, and talents to enhance the community where they live. Although they have no children of their own, they decided to help the children of Hayfork, knowing that the need was great. A significant anonymous contribution was made by a local resident. The fund has now reached a level that supports its annual budget. (1998)

### Trinity County Historical Society Endowment Fund

The Trinity County Historical Society Endowment Fund, managed by the Trinity Trust, is designed to financially support future projects

of the Trinity County Historical Society. These projects preserve and disseminate the history of Trinity County through the J.J. Jackson Museum, Hal Goodyear History Park, and Alice Jones History Center by procuring, preserving, displaying, and sharing artifacts and information for the enrichment, enjoyment, and education of residents, tourists, and schoolchildren. (2014)

### Trinity County Library Benefit Fund \$17,324

Two funds were established in 2004 in response to drastic reductions to the county library budget. To ensure the survival of the three public libraries serving Trinity County, the funds are administered by a steering committee of the Trinity County Friends of the Library. Donations may be made to both funds. The library's immediate needs will be served by the Trinity County Library Benefit Fund, including regular contributions from library supporters and proceeds from fundraising benefits. Present unmet library needs, such as building the library's database and providing substitute staff to keep facilities open, are being subsidized from this fund. The Friends continue to raise additional funds to spend directly on books, subscriptions, equipment, and supplies. (2004)

## Trinity County Library Benefit Endowment Fund

**The Angel Fund**

\$7,169

The Angel Fund provides fast financial assistance to Humboldt County families for health and medical needs. 100% of donations made to this fund directly assist community members in need. The Angel Fund Committee meets weekly to consider grant requests made on behalf of an individual or family, serving all ages, from infants to seniors. (1999)

**The Dental Angel Fund**

\$13,072
