DONOR YEARBOOK
& ANNUAL REPORT

Inspired by Generations of Community Involvement

Living in a rural region means that everyone shares in the effort of building community. The pages that follow celebrate the incredible impacts we've made together. Whether you volunteer, provide direct services, donate, attend events, or simply pick up a piece of litter on the street, you are contributing to the betterment of this place we all call home.

In 2024, the Foundation reorganized its leadership structure, while remaining anchored by a diligent, committed Board of Directors. As the newly appointed Chief Operating Officer, I'm excited about the opportunity to lead the organization in executive day-to-day management. Over the past two decades, I have served in roles across all aspects of our work, from grantmaking to finance to donor relations, and have witnessed our remarkable growth, as well as our increased effectiveness in serving our community. Over the course of my 20+ years at HAF+WRCF, I have seen our amazing staff—along with our assets and grantmaking—grow tremendously. In the 2023-2024 fiscal year, we granted an unprecedented \$8.7 million, made possible by the individual donors and foundations that have provided support and partnership.

Our CEO, Bryna Lipper, has been accepted to a distinguished Ph.D. program at Carnegie Mellon University, with a focus on climate change and social justice in rural and Indigenous communities. She will be stepping out of day-to-day management and will assume the role of Chief Innovation Officer, collaborating at national and state levels to further philanthropic efforts supporting our region.

I'm also excited to share that the Foundation has initiated a major new effort: The Klamath River Fund. With a \$10 million grant from the William & Flora Hewlett Foundation, we launched the Klamath River Fund in June 2024. The fund's announcement coincides with the historic removal of four dams on the Klamath river, representing the culmination of a generation of tireless work. You can read more about the fund and the generational project that lies ahead on page 12.

The Foundation is designed to be both sustainable and responsive to an ever-changing community. I'm inspired by our efforts to enable and empower this unique region to thrive as a just, healthy, and equitable place for current and future generations. Every day, I show up eager to listen and learn, put our heads together on tricky problems, and find ways to create and support efforts to improve this unique place we live in. What inspires you? I'm listening!

Strategic Vision and Goals

Our Strategic Vision

The Humboldt Area Foundation and the Wild Rivers Community Foundation together hold a shared Strategic Vision that will guide the Foundation efforts through 2030 and beyond. This strategic vision is an assertion of our values and a road map to guide how we invest and collaborate across our four-county region. We envision a generational outcome of a thriving, just, healthy, and equitable region.

This vision will be animated by four specific, decade-long goals:

Racial Equity

Transforming our institutions and structures to address the outcome gaps across every indicator of success, from infant mortality to life expectancy, that have been created by hundreds of years of racial oppression.

Thriving Youth & Families

Investing in the future by creating a safe, healthy place where generations of families can grow and have the chance to succeed—where everyone has the chance to experience support and success in their community and reach their greatest potential.

Healthy Ecosystems & Environments

Using traditional knowledge and cutting-edge science to clean our water, purify our air, maintain our soil, adapt to a changing climate, and provide sustainable sources of food, energy, water, and transportation.

A Just Economy & Economic Development

Bolstering economic development to create opportunities for each person in our region to have a dignified, productive, and creative life unencumbered by poverty or exploitation.

Our Five Key Perennial Values

HAF+WRCF is guided by five key perennial values that define how we fulfill our goals and pursue positive outcomes across our four-county service region.

- 1 We seek to reduce economic, social, health, and environmental vulnerabilities that disproportionately impact underserved communities;
- 2 We are in active promotion of racial equity. We recognize that people of color possess unique knowledge, assets, and experiences that can elevate us all;
- 3 We will be adaptable and responsive leaders, addressing both urgent and systemic issues that affect our region;
- 4 We will partner and collaborate to increase impact, share resources and responsibility, build capacity, and diversify understanding;
- 5 We bring our region's cultures and communities together in a spirit of learning, empathy, and connection. We empower local knowledge and invest in our community's solutions.

Native Land Acknowledgement

We share a deep gratitude and respect for our Indigenous communities. We acknowledge these 18 Indigenous peoples and the federally and non-federally recognized nations that represent them.

Boosting Community with Local Lending

Last year, HAF+WRCF approved a seven-year **\$1 million** real estate loan for a Life Plan Humboldt project, co-financed with North Edge Business Financing & Community Development, RREDC (Redwood Region Economic Development Commission), and the Headwaters Fund of Humboldt County. The loan is backed by an 80 percent guarantee through the California iBank program. Life Plan Humboldt and its partner Rural Communities Housing Development Corporation are working to offer a comprehensive moderate- and low-income supportive housing solution that will free up as many as 100 units of family housing currently occupied by seniors seeking simpler living conditions. The \$6.7 million project will leverage more than \$100 million in additional construction financing and create both short-term construction jobs and ongoing new payroll of \$2 million across 40-60 part-time and full-time jobs.

In addition to new community mission investments in 2023-24, the Foundation is still proudly servicing loans from past years to the Northern California Indian Development Council, the Hoopa Shopping Center, ilwai kiliwh, the Blue Lake Town Center, a Hoopa Valley Tribe land back purchase, Humboldt NeuroHealth, Affordable Communities, Inc. (formerly Resident Owned Parks), and multiple COVID-19 pandemic small business loans. ♦

Supporting Aquatic Safety for Curry Youth

Waterway safety is crucial. Last year, the Foundation supported Curry County in deploying effective safety programs. HAF+WRCF supported the Curry County Aquatic Safety Program, which helps youth learn vital skills to live and recreate safely. The program includes a Junior Lifeguard Program, where youth learn about safe recreation for themselves along with first aid, CPR, and other life-saving skills. The program also prioritizes working with vulnerable youth to remove barriers to accessing the Brookings Municipal Swimming Pool for healthy recreation and safety education. Organizers also hope to create job opportunities where student aids can become certified open-water lifeguards. ♦

Supporting Disaster Response, Resilience, and Recovery

PHOTO COURTESY KEVIN LOMIGLIO

Through the Community Response Team (CRT), the Foundation has continuously supported organizations leading the December 2022 earthquake recovery efforts in the Eel River Valley using a variety of tools, including grantmaking and technical assistance.

As of June 2024, over **\$490,000** had been deployed to support individual unmet needs and over **\$360,000** had been granted for construction management, labor, and equipment for longer-term home repair projects.

In addition, annual wildfires require immediate response and resilience efforts. In July 2023, the Foundation's CRT connected with regional partners to address the impacts and needs

created by the Perch, Flat, and Smith River Complex fires, which threatened and eventually displaced community members. Within a few weeks, the team connected with several community partners to understand and assess needs, acted as a conduit to connect needs to existing resources, and deployed over **\$150,000** in rapid response grantmaking dollars for emergency supplies, food security, hygiene, and general operating support. ♦

Focusing on Economic Development

The Foundation proudly co-sponsored two thought leadership sessions at the Redwood Region Economic Summit. “How to Weave Inclusion, Prosperity, and Community” was led by Drs. Manuel Pastor and Chris Benner, long-time collaborators who

co-authored the book “Solidarity Economics: Why Mutuality and Movements Matter.” Omar Carrillo Tinajero led “Transform Your Community’s Vision into Project Pipelines.” With the Center for Community Investment, Tinajero leads initiatives that support local partners in advancing their communities’ priorities and attract and deploy capital to shift systems toward equitable outcomes. ♦

Humboldt Health Foundation Community Health Grants

Humboldt Health Foundation's annual Community Health Grant program deployed over **\$120,000** in grants to charitable organizations and projects that are working to support the physical and mental well-being of Humboldt County residents, improve the health of those who have experienced social or economic disadvantages, and increase access for the underserved and marginalized population. Recipients included:

- Open Door Community Health for their Harvest Box Partnership for Wellness,
- Healy Senior Center's Meals on Wheels program expansion,
- English Express for improving the lives of immigrant communities,
- Food for People's culturally appropriate foods project, and
- Queer Humboldt for developing a system to bill insurance companies for mental health services, reducing out-of-pocket impact on clients, and increasing affirming therapy services with a long-term sustainable funding model.

Read more about the Humboldt Health Foundation on page 18. ♦

Holiday Funding Partnerships

Last year's Holiday Funding Partnership Grant Program provided 60 grants totaling nearly **\$76,000** to charitable organizations. "These grants and our community partners who fund the program support the wonderful work these organizations do every winter to provide food, clothing, and other necessities to underserved communities," said Elena Keltz, Project & Program Manager.

Some of the grant recipients include the Women's Crisis Shelter in Southern Humboldt County for clothing and meals; Trinity Community Food Outreach Inc. for Christmas dinners; the Brookings-Harbor Community Helpers' Winter Youth Snack Pack Program; and St. Timothy's Episcopal Church for clothing, meals, and gifts for the unhoused. A big thanks to our funding partners, who include the Humboldt Health Foundation, the Mel & Grace McLean Foundation, the Patricia D. & William B. Smullin Foundation, and Providence's Community Health Investment. ♦

Summer Youth Partnerships

This year's Summer Youth Partnership grant program supported 10,414 youths through grants totaling **\$57,363**. In all, 41 charitable organizations and projects received support for programs that offered healthy and engaging summer activities. The Mel & Grace McLean Foundation, The Patricia D. & William B. Smullin Foundation, Providence's Community Health Investment, William & Gudran Gilbert, and the Community Assistance League Community Health Fund supported the collaborative program. ♦

MMIP Fund Activity

The Pacific Redwoods Missing & Murdered Indigenous People Crisis Action Fund distributed **\$135,000** in grants to organizations focusing on solutions to this ongoing crisis. The Foundation is thankful to the committee for working together with staff to identify risk factors and other conditions that contribute to the Missing and Murdered Indigenous People (MMIP) crisis. "The more complex a problem is, the more upstream you need to go," says Holly Hensher, a Senior Program Officer at the Foundation. Grants provided direct support of violence survivors through the North Coast Rape Crisis Team, a health coordinator position for the Women's Center at the Redwood Adult & Teen Challenge, and support for young mothers to attend programs offered by A Mother's Village. ♦

New Fund Supports Next Generation of Klamath Communities

The Klamath River Fund (KRF) is a new program focused on community-led climate resilience and restorative justice work in the Klamath Basin. Following 2024's historic dam removal, the fund will be using the opportunity to amplify restoration and revitalization efforts over the next 10 years.

The dam removal was the culmination of a two-decade campaign led by the Karuk, Yurok, and Klamath Tribes and allies in the fishing and environmental communities. Now we have another generational project ahead of us: restoring the ecosystem so the region can thrive ecologically, economically, and culturally.

River Restoration is an Investment in People and the Environment

The Klamath River Fund was created with a generous contribution from the William & Flora Hewlett Foundation, which has been matched in generosity to date by The James Irvine Foundation, the Roundhouse

Foundation, Meyer Memorial Trust, Tamalpais Trust, the Jubitz Foundation, The California Endowment, the MacArthur Foundation, the Bella Vista Foundation, and the Gordon and Betty Moore Foundation. The fund, which has now grown to nearly \$12 million, will continue to pursue its goal of supporting the communities of the Klamath River Basin through 2033.

In addition to increasing funding for Tribal and rural community needs, the KRF seeks to create a comprehensive effort to advance climate and community resilience within the Klamath River watershed, from its headwaters to its mouth. We also aim to assess and facilitate effective grantmaking, strategy coordination, and technical assistance to support Tribal and local community-driven restoration and revitalization priorities. Ultimately, we believe the dam removal and the Klamath River Fund can demonstrate how river restoration is an investment in climate resilience, community resilience, and restorative justice.

Donors Support “Care Closets” for Del Norte Students

PHOTO COURTESY PAMELA WILDER

The Care Closet Project is a community support program operated by the Del Norte County Office of Education/Unified School District (DNCOE). This year, the program received a **\$10,000** grant from the **Community Assistance League Community Health Fund**.

The Care Closet Project ensures every student in Del Norte County has equitable access to essential items to help support and increase student attendance and achievement. Care Closets provide students with school supplies, hygiene and personal care products, cold-weather items like coats and gloves, and basic clothing essentials such as undergarments and socks.

“This year, we proudly donated to the care closets at local schools, which provide essential supplies to keep kids healthy, comfortable, and ready to learn,” says Deja Wakefield, a member of the advisory committee for the fund. “By supporting these closets, we’re helping ensure that all students have access to basic hygiene and wellness items so that they can focus on their education and well-being.”

Joe Hamilton Elementary School hosted the first Care Closet in the spring of 2023, and district members have been working on expanding the program throughout the 2023-2024 school year. Currently, there are 13 Care Closets

“Any student enrolled in a Del Norte County School can request support from the Care Closet Project, providing a unique opportunity to equip students with the items they might need to succeed in school without judgment or stigma.”

throughout Del Norte County, located at each school site as well as at the Epicenter, which houses the district’s supportive services like Early Childhood Education (preschools), Title VI Indian Education, Redwood Coast Indian Career Pathways (RCICP), and Foster & Homeless Youth Services.

“What sets this project apart is that a student does not need to be considered ‘eligible’ or meet certain criteria to access items from their school site closets,” says Pamela Wilder, Director of Foster & Homeless Youth Services for the district. ♦

Four Humboldt Textile Artists Receive 2023 Victor Thomas Jacoby Awards

Textile art by
Victor Jacoby

The 2023 Victor Thomas Jacoby Award winners were, from left to right, Michelle Sonnenfeldt, Sasha Lyth, Jessica Trudeau, and Devva Kasnitz.

Every fall, local artists are encouraged to apply for the Victor Thomas Jacoby Award. They're asked to submit examples of their work and share their vision for innovation and how they would take their art to the next level.

In 2023, four artists each received **\$10,000** to further their exploration of their chosen medium. The prize comes from the Victor Thomas Jacoby Fund, which Victor created in 1997, shortly before his death at age 52. Victor was a master teacher and talented artist whose work in French tapestries was exhibited nationally and internationally.

The Kay Gott Chaffey Book Fund also supports the award. Kay created this fund to carry Victor Jacoby's legacy forward by printing a book highlighting the artists selected each December to receive this prestigious award. The book was lovingly compiled by Kay Gott Chaffey, Bob Doran, Alan Sanborn, and Gary Bloomfield and is updated annually.

"Victor's passion for the arts has ignited a legacy of empowerment, weaving dreams into reality through the tapestry of creativity," says Sydney Morrone, Grants and Scholarships Manager. "His spirit lives on as the Foundation supports artists and craftspeople as they continue to expand the boundless horizons of their artistic pursuits."

Last year, the award supported artists working in textiles. The four recipients were Devva Kasnitz, Jessica Trudeau, Michelle Sonnenfeldt, and Sasha Lyth.

After a two-year hiatus, the Foundation recognized the winners at a reception at the Morris Graves Museum of Art in Eureka. Along with current winners, award recipients from 2021-22 were also recognized in the revived ceremony. The 2021-22 recipients were Shawn Gould, Mo Harper-Desir, Claire MacKenzie, Annette Makino, Zak Shea, Steph Thomas, Marceau Verdiere, and Daniel Willson.

In January, HAF+WRCF was saddened to learn of the passing of Devva Kasnitz. Kasnitz was a guiding light in field of disability studies. She was a cofounder of the Society for Disability Studies and the Disability Research Interest Group of the Society for Medical Anthropology. She was also well loved within the local community for her service and artistic contributions. She will be missed. ♦

Supporting California Indian culture bearers, artists, lifeways, and knowledge transmission.

First envisioned by Northern California Native leaders in the 1990s, the Native Cultures Fund (NCF) has supported more than **400 artists, culture bearers, and tribal researchers, sharing over \$3 million** through grants to Native communities and individuals in the past 25 years of community work. Grants are used for the preservation, revitalization, and perpetuation of the rich California Tribal cultures across NCF's service region. Initiated and led by Native peoples, NCF is a partnership between Native communities, HAF+WRCF, the William and Flora Hewlett Foundation, and other donors. HAF+WRCF became our official home in 2002.

OUR APPROACH

Led by Native Peoples

All grant and scholarship recommendations are made by committees of Native culture bearers, scholars, and elders from across our regions, with committees changing each fall and spring. To honor the tradition of reciprocity, we also invite past recipients to join our review committees. In addition, we look to cultural leaders to help provide guidance and leadership in developing ongoing strategies and priorities for the fund. ♦

OUR WORK

Funding

Nationally, less than .04% of philanthropic dollars go to Native causes and organizations, with an even smaller percentage supporting projects that focus on cultural sovereignty and the transmission of traditional values. NCF is working to change this and is honored to share resources with Native communities and individuals. NCF is often the first introduction to philanthropy for many of these grassroots organizations and communities.

Relationship & Field Building

NCF works to bolster the field of philanthropy, increasing the capacity of national and statewide philanthropic partners to better serve Native peoples through education, advocacy, collaborative funding, and coaching. Concurrently, we offer services to Native organizations and communities through one-on-one consulting, grant-writing assistance, and networking opportunities.

Programs

In partnership with community leaders, we create and sustain programming that offers culture bearers, language revivalists, and Native educators the space to build community, share best practices, and strengthen the cultural renaissance in California. NCF also supports programs to promote widespread understanding of Native cultures and history. ♦

OUR IMPACT

NCF continues to reflect and build upon the findings from our 2019 program evaluation. Additionally, through a built-in feedback loop with the communities we serve, we continue to deepen our understanding of what it truly means to be in support of community. We recognize that cultural communities throughout the state are dynamic, living, breathing societies that are in constant movement. As such, we continue to listen, evolve, and develop new ways to support cultural revitalization in Native California. ♦

OUR REACH

NCF has been honored to do this kind of community work for 25 years. Because of our deeply rooted, multi-generational relationships with the many communities across our service region, we have been able to witness firsthand the healing journeys of these communities. We have seen the reclamation and revitalization of California's first peoples. This year, we want to highlight current work, while also taking a moment to honor the long journey and the growth of our community. ♦

Herlh-perh Project

Trinidad Rancheria has been hosting ongoing workshops, practices, and camps for youth in the community to engage in herlh-perh, a traditional stick game. Tribal traditions, including herlh-perh, help revive and restore the physical wellbeing of the participants, the spirit of cooperation and connection, and the vitality of community.

By bringing their ancient ways and practices forward, their people are taught the true meaning of respect; even though they compete against each other, their people will still come together in a time of need. The program also provides a focal point to coordinate and build other community activities and relationships. ♦

Yurok Tribal Language Program (YTLP)

NCF has been honored to support many communities in language work over the past 25 years, from larger community support through the Living Your Language Alliance (LYLA) to more focused work with individual language communities.

The Yurok Tribal Language Program was established in 1998 and included those who demonstrated a lifelong mission to preserve and revitalize the Yurok Language. In the beginning, preservation was at the forefront of saving the Yurok language. The YTLP worked tirelessly to access resources to document interviews and listening sessions with fluent elder Yurok speakers, including grants from NCF. NCF also supported and advocated for Yurok language classes in local public school systems.

Today, the Yurok Language Program continues to utilize language documentation as a tool for continued learning, while also providing access to learners near and far with their website, yuroklanguage.com. The Yurok Language Program has become a model for others to learn from as they continue to preserve and revitalize the Yurok language, helping to heal their communities from intergenerational trauma and the Indian Boarding School era.

Building upon the revitalization of the Yurok language, NCF has been honored to be the home of the 'Aa-wok Georgiana Trull Memorial Scholarship. A scholarship began by the family of one of those elders, 'Aa-wok Georgiana Trull. Through this scholarship we can support students active in Indigenous Language Revitalization as they pursue additional knowledge to support their communities. ♦

HUMBOLDT HEALTH FOUNDATION

The Humboldt Health Foundation creates access to wellness and supports innovative local solutions to make Humboldt healthier. Formerly the Union Labor Health Foundation, this supporting organization of HAF+WRCF has awarded a total of \$5.1 million in grants to charitable organizations and projects, nursing scholarships, and assistance to community members for health and dental care since 1997.

The primary mission of the Humboldt Health Foundation is to improve the health and well-being of the residents and communities of Humboldt County and other communities in Northern California, while also improving services for the people of Humboldt County.

COREHub

Redwood Region Climate & Community Resilience (CORE) Hub

The Redwood Regional Climate and Community Resilience Hub (CORE Hub) continues to advocate for local involvement in industry development and climate resilience efforts. As Humboldt Bay's offshore wind industry develops, CORE Hub continues to launch programs to convene community leaders, organizations, interest groups, local government, and neighbors. Supported by philanthropic partners, including The James Irvine Foundation, The California Endowment, The William and Flora Hewlett Foundation, and the S.H. Cowell Foundation, CORE Hub centers equity and justice in climate mitigation efforts on the North Coast and beyond.

The proposal for an offshore wind industry cluster includes offshore wind farms, port development in Humboldt Bay, electrical transmission and onshore upgrades, and supporting industries, like broadband access, a skilled workforce, a supply chain, and rigorous monitoring of environmental impacts.

The CORE Hub's role in boosting community influence in government and development projects is crucial. To manage the many dynamic elements involved, the Hub has launched multiple working groups comprising nearly 40 entities. These groups work to ensure that as government and developers determine the scope of the projects that will support offshore wind facilities, community influence is at the forefront.

Since its 2021 inception, the CORE Hub has helped launch the North Coast Offshore Wind Community Benefits Network, the Wind Terminal Working Group, the Tribal Offshore Wind Working Group, and the Tribal Nations Climate Resilience Network. Collectively, these bodies monitor industry progress and assess opportunities for influence, advocate for robust environmental review, engage with leaders and elected officials at the federal, state, and local level, and share information with impacted communities. CORE Hub's community grants and stipends, technical assistance, collaboration, and other initiatives support the constellation of frontline organizations, Tribal Nations, and local governments.

In the last year, CORE Hub provided \$100,000 in staff capacity funding for each of nine Tribes and launched a \$1.1 million non-competitive grant program that was co-designed with Tribal nations to help prepare energy and climate projects for public and private funding.

By forging these new connections and strengthening existing ones, CORE Hub continues to prioritize equity and justice in the climate transition. ♦

CORE Hub's Mission

To prioritize equity and justice in transition to a climate resilient and decarbonized future by ensuring benefits accrue to underrepresented, historically and currently marginalized communities first and to the greatest extent. Over \$900k in Scholarships Empower Students' Higher Ed Dreams

This year, thanks to the generosity of our donors, the Foundation has awarded over **500** scholarships, totaling more than **\$900,000**.

"We're dedicated to empowering future generations through education, one scholarship at a time," said Meredith Knowles, Director of Grantmaking. "Our commitment to financially investing in students supports their journey to higher education completion, fostering financial stability and success."

The Foundation currently manages hundreds of scholarship funds, helping students pursue a diverse range of educational goals. A few years ago, Bob Weyant, a donor and alumnus of Fortuna Union High School (FUHS), reached out, wanting to create a new fund to help the next generation of students.

Weyant was inspired by his experience growing up in a lower-income community. As a high school graduate, Weyant received no scholarships and worked throughout college to afford his education. Reflecting on the challenges students face today, Weyant acknowledges that his college experience was much different and that affording college with just a part-time job is nearly impossible today.

"We're dedicated to empowering future generations through education, one scholarship at a time."

Meredith Knowles
Director of Grantmaking

Now, as a successful professional considering access to higher education, Weyant doesn't want money to stand in the way of FUHS students. Weyant credits the thoughtful counselors at Fortuna High for introducing him to the promising students of the Movimiento Estudiantil Chicano de Aztlán, also known as the M.E.Ch.A. Club.

Jasmin Carillo is the 2024 recipient of the Fortuna Union High School M.E.Ch.A. Club scholarship. She is currently a freshman at UC Santa Cruz.

Today, the Fortuna High School Scholarship Fund for the M.E.Ch.A. Club supports a graduating senior with a \$10,000 scholarship, distributed over four years. This year's recipient, Jasmin Carillo, is now a freshman at the University of California, Santa Cruz, majoring in Ecology and Evolutionary Biology.

Weyant says the counselors explained that the students in M.E.Ch.A. showed incredible promise and a commitment to education, but many would face struggles affording the rising costs of a four-year education. "Establishing the scholarship fund felt like a good way to help students like Jasmin reach their college dreams," says Weyant.

For Carillo, the scholarship started by applying to the Foundation's Universal Application which is powered by an in-house application platform, Scholarship Finder.

"I want to thank Bob and everyone who helped create the M.E.Ch.A. scholarship. It will definitely make it easier to pay for all the expenses during my college career. I encourage all students to check out the Scholarship Finder," says Carillo.

The HAF+WRCF Universal Application is a single application that students can use to access over 190 scholarship opportunities. The Universal Application opens in mid-January each year, with an early March deadline. However, some scholarships are offered throughout the year, so check back often! ♦

Getting Support: Grant and Scholarship Opportunities

GRANTS

Grantseekers can visit our online grants portal at hafoundation.org/Grants to learn more about our various funding opportunities. Some of the opportunities featured on the grants portal include:

Klamath River Fund Grants

The Klamath River Fund supports community-led climate resilience and restorative justice work. Following the unprecedented dam removal in 2023 and 2024, the fund will invest in and amplify restoration and revitalization efforts in the Klamath River Basin in the decade that follows. It offers both Catalyst (under \$10,000) and Community Impact Grants (\$10,000 and above).

Humboldt Health Foundation's Angel Fund

The Angel Fund provides assistance for the medical and healthcare needs of Humboldt County residents. Applications must be filed by a qualified sponsor such as a recognized social service agency, school counselor, or medical provider.

Trinity Trust Community Response Grants

This program is designed to respond to urgent, unexpected, or one-time needs—chances for a small investment to make a lasting difference to the community.

Victor Thomas Jacoby Award

This annual award supports visual artists and craftspeople in Humboldt County. The fund exists to support and encourage the exploration of new ideas, materials, techniques, mediums, and images and to help artists to pursue excellence.

SCHOLARSHIPS

Every year, the Foundation supports hundreds of students with scholarships for their higher education pursuits (read about this year's scholarships on page 21). Learn more at hafoundation.org/scholarships.

These scholarships are offered to students pursuing any form of postsecondary education, including associate degrees, bachelor's degrees, and master's degrees, as well as degrees and certifications from career, vocational, or technical schools. While most scholarships are primarily intended for and offered to students in the Foundation's four-county service region, some scholarships are available to national or global applicants.

Students can learn more online at Scholarshipfinder.org. Our Universal Application period runs from mid-January through early March.

Ways to Give

HAF+WRCF has been built on the generosity of residents who believe in giving back to the community they love. Thousands of individuals, families, businesses, nonprofits, civic groups, and others have contributed by establishing a fund, donating, or leaving a legacy gift, all with the goal of making the world and our region a better place. There are many ways to join us in continuing this work together:

START A FUND

Our team is available to support you and your family, business, or nonprofit organization in establishing a fund that serves your philanthropic goals. Several fund types are available, including Donor Advised Funds. Our knowledgeable staff will help you decide which giving vehicle best serves your vision and your community.

MAKE A GIFT

Many donors choose to make a one-time or recurring gift to an existing fund that is meaningful to them or aligns with their charitable interests. We can help facilitate a gift via a variety of assets, including:

- **Cash**
- **Stock**
- **IRA (Qualified Charitable Distribution/QCD)**
- **Other Assets**

LEAVE A LEGACY

Our Donor Relations team will explain charitable giving options for your will or trust and work with you and your attorney and other professional advisors to structure a planned gift that will support the place you love after your lifetime, whether that is through a general gift to support the Foundation's charitable work or to benefit organizations and projects that you care most about.

Call our Donor Services Team at (707) 267-9905 or email donorservices@hafoundation.org to discuss your goals and maximize the impact of your gift on our community's future.

Why invest with HAF+WRCF? Donors and nonprofits have many options when choosing where to invest their charitable assets. By investing in a fund at your local Community Foundation, you are choosing to support local—keeping dollars in our local economy—and benefit from our staff's expertise and deep knowledge of local issues. You'll also have the option of in-person support meetings, tailored to your needs. We're happy to discuss your options for charitable giving and explain the benefits of our pooled investment program.

Professional Advisors

We recognize the important role that estate planning attorneys, financial advisors, certified public accountants, insurance agents, and other professional advisors play in supporting the well-being of clients, heirs, and community.

According to the 2018 U.S. Trust Study of the Philanthropic Conversation, 34 percent of high-net worth individuals feel the topic of philanthropy should be raised during the first meeting with an advisor, and 90 percent agree it should occur within the first several meetings.¹

As your local community foundation, we can provide resources and expertise to help translate your philanthropically inclined client's values and passions into a meaningful and impactful legacy.

HOW WE CAN HELP

Local Knowledge: With more than 50 years of community knowledge and deep relationships with nonprofit partners, we can advise you on community needs and local trends in philanthropy.

Expertise: We have experience with many planned giving options, including bequests, IRA rollovers, charitable remainder trusts, and more, as well as the best strategies for structuring charitable gifts for lasting impact.

Flexibility: As a public charity, we can accept a wide variety of assets and offer maximum tax advantages.

Resources: We can share sample documents and gift illustrations for clients to ensure their charitable gift is applied in alignment with their wishes.

Respect: We value the trusted relationship that professional advisors share with their clients, and we work in partnership to support their goals.

Permanence: We have been here for over 50 years, and our financial structure is designed to ensure our continued presence in the community.

If we can help support your client's philanthropic goals, contact Laurel Dalsted, Director of Donor Services, at LaurelD@hafoundation.org or (707) 267-9905.

Our Funds

New Funds

The following funds were established between July 1, 2023 and June 30, 2024 by generous donors in our community who were inspired to make a difference. These funds join over 900 others established over the years, weaving their stories together with those that came before to contribute to our community's shared goal of making our region, and the world, a better place.

Thomas H. Allen Memorial Scholarship Fund

The Thomas H. Allen Memorial Scholarship Fund was established by Roberta Allen in memory of her husband. The fund supports students graduating from McKinleyville High School, where Mr. Allen served as principal. (2024)

Conservation Unlimited Internship Fund

The Conservation Unlimited Student Internship will annually support a Cal Poly Humboldt undergraduate student as a summer biological intern

stationed at the Humboldt Bay National Wildlife Refuge. The selected intern will assist refuge staff during biological monitoring, wetland management activities and will collaborate with other refuge interns on conservation oriented projects. Conservation Unlimited Alumni Association (CUAA) has established this student internship in memory of Dr. Stanley "Doc" Harris. As a renowned ornithologist and professor at Cal Poly Humboldt, Doc was a legendary mentor for generations of wildlife students who are now leaders in natural resource conservation throughout the United States. This internship not only commemorates Doc's legacy but also advances his vision of providing undergraduates with immersive, hands-on learning experiences. (2023)

David's Haunted Manor Scholarship Fund

David's Haunted Manor Scholarship Fund was created to support education to Del Norte County residents. Many of our volunteers are youth who go on to higher education. We hope to provide support to anyone in Del Norte who is trying to further their education. (2023)

Freshwater Grange Fund

Since 1885, Freshwater Grange Hall has been a vital hub for the Freshwater community, serving as a meeting space, event venue, educational & lecture hall. We are the primary auditorium for Garfield Elementary School, hosting Garfield School plays, graduation ceremonies, concerts, and fundraisers. Freshwater Grange is committed to revitalizing our historic dance hall to preserve its legacy for future generations and to enhance its role as a community asset. Our vision aims to renovate our hall, integrating 21st-century amenities with the building's enduring 19th-century charm. These enhancements will expand the ways in which we are able to serve the community, provide an improved resource for Garfield School students, as well as equip the hall to be a hub for the Freshwater Community Emergency Response Team (C.E.R.T.). Freshwater Grange encourages people to come together by providing educational activities, community safety programs, social gatherings, communal meals, and more. We believe that every person should have the opportunity to contribute to and be supported by a strong and vibrant community. We are a nonpartisan, fraternal organization and a member of the CA State Grange. (2024)

Guided Giving Fund

The Guided Giving Fund is a donor advisory fund created by a local family to support a number of Wild Rivers Community Foundation programs. The fund's main missions are supporting food security, providing for the needs of Seniors and supporting the various ethnic groups which make up our diverse community. Donations are welcome and greatly appreciated. (2023)

Jim & Betty Hercher Endowment Fund

The Jim & Betty Hercher Endowment Fund supports direct medical service, patient care, mental health care and other direct services. It will not support capital projects, building expansion, equipment, or administrative costs. (2023)

Ross Hibler & Jeanne Wood Hibler Family Scholarship Fund

Jeanne and Ross graduated from EHS in 1960 and 1959 respectively. Several others in their families were also graduates of EHS including Dianne Wood (1959), Gary Hibler (1961), Lee Hibler

(1963), and David Isaacson (1962), and many others in their extended family. Jeanne and Ross' Humboldt roots were strained by Ross' 25-year service in the US Navy, but Eureka California was always the answer to the inevitable question "Where is your home?" The importance of education was stressed in their family which, along with strong personal perseverance of their children. Ross Jr, Lyle, and Claire graduated from the California university system schools (HSU and UCSB). We as a family believe that our society needs now and will increasingly require educated citizens in the future. The cost of not developing individual talents will be paid by our society. These scholarships are our effort to find and develop these talents which might otherwise be unrecognized and underdeveloped for the betterment of society. (2023)

The Huber-Bundros Family Fund

Our family established this fund to honor the memory of our parents, Al and Betty Huber. They enjoyed life to the fullest and threw themselves wholeheartedly into many causes and activities to better the lives of others and the natural world around them. Our mother and father valued honesty, hard work, lifelong learning, and their family and community. We were lucky to have had such loving, involved parents, and later grandparents. Betty and Al enjoyed a happy marriage and modeled what the words 'for better or worse' really mean. When our mother developed Alzheimer's, Dad was her unwavering caregiver, teaching himself how to cook, clean (sort of), and even the family tradition of home canning. Betty and Al loved visiting our beautiful North Coast. This fund benefits various local organizations in their memory, with a focus on Alzheimer's, senior services, Hospice, our community food bank, library, and local land trusts.

George Owen Knapp Memorial Fund

George Owen Knapp, a philanthropist and influential man of his era, was President of Peoples Gas Light and Coke Company in Chicago, and founder of Union Calcium Carbide Company. He had a special focus on medical care in his philanthropic efforts. Originally a resident of New York, Knapp relocated to Santa Barbara later in life, where he was instrumental in the growth of Santa Barbara Cottage Hospital. In retirement, he spent time in the Crescent City area, and, noticing a lack of access to healthcare in the region, established the Seaside Hospital, also known as the Knapp Hospital, in 1931. The hospital served the community for over 60 years. Mr. Knapp passed away in 1945 at the Cottage Hospital in Santa Barbara. This fund carries on Mr. Knapp's philanthropic spirit by supporting charitable needs in Del Norte County, especially in the area of healthcare.

The Littlefield Family Foundation

The Littlefield Family Foundation was created by Rick & Betty Littlefield in 2023 to support worthy causes in our community, our state, our nation and the world at large. This financial support is meant to be spread widely to diverse organizations to achieve their goals at home and abroad. Such causes may include support for sustainable living, youth and senior activities, trails maintenance and environmental cleanups, partnerships with Rotary and other service clubs, microfinance organizations such as KIVA and many other organizations as yet to be determined. (2023)

Donell & Jack McCanless Family Scholarship

The McCanless Family Scholarship Fund is funded by Jack and Donell McCanless of Ferndale. Jack and Donell lived through the depression era as well as WWII, in which Jack served. After the war, Jack moved to Berkeley where he reconnected with Donell. They were married and returned to Ferndale together. Jack worked for Pacific Lumber Company for nearly two decades, in the later years building up a small herd of heifers that eventually became the McCanless Dairy. Donell raised their three sons and began her teaching career which focused on students with different needs. In addition to her career she was an avid gardener, knitter, baker, canner and VFW supporter. The scholarship criteria reflect Jack and Donell's strong work ethic, ability to overcome adversity, and passion for their careers by supporting students who have shown perseverance in the face of challenges and are interested in pursuing agricultural science or becoming an educator.

Jordan Andrew "Almonds" Miesbauer Memorial Fund

The family of Jordan Andrew "Almonds" Miesbauer established this endowment to provide assistance to those facing the pain, loneliness & hardship resulting from

economic discrimination, mental illness, LGBTQ+ community challenges, education inaccessibility, cost & lack of availability of health services, homelessness & the challenges faced creating careers based upon lived experience. Humboldt County was Jordan's home for most of his 30 years. He earned his B.S. in Dietetics from UC Berkeley & returned to start his career as a Registered Dietitian at St. Joseph Hospital. Just as he was starting on his own journey of giving back to his community, Jordan's life was cut short by complications arising from his personal struggles with mental health. Jordan was & forever will be a big personality with an inquisitive nature & a kind and deeply sympathetic heart. It is our hope that with this endowment, Jordan's loving, expansive spirit will continue to be felt in the giving of practical assistance & encouragement to those facing their own personal struggles. This fund will support the health & well-being field of interest in all of the Foundation's service areas. The field of interest will include: mental health, accessibility, the LGBTQ+ community, unhoused population, and career help. (2023)

Derek Parker Memorial Fund

Derek Wayne Parker was born August 20, 1990 in Eureka, CA to John W. Parker and Suzanne E. Olson. He was a graduate of Eureka High School and attended College of

the Redwoods. Growing up, Derek's focus was always on sports, especially baseball. He learned from the two coaches in his life; his Grandpa Wayne and his dad. He could recite from memory team players, their stats, what teams won in what division in what year. His favorite sports teams were all in "The Bay": S.F. Giants, Golden State Warriors and the San Francisco 49ers. He would travel to watch them play every chance he got. Derek was in a tragic car accident and died from his injuries on September 11, 2016. He was 26 years old. In keeping with his passion, Derek's grandparents, Robert Gish & Joan Rainwater-Gish, along with their family, have established a memorial fund to honor his memory. Advising Derek's fund are his mother and sister, Kasidy. This fund has been set up in hopes of inspiring local youth athletes, who are playing just for fun or who excel in their sport, to 'Just Do It!' (2023)

Johan Ployter Charitable Fund

The Johan Ployter Charitable Fund was established in 2023 in order to support Native American cultural, health and legal causes. Born in The Netherlands, Johan developed early

an interest in nature, sciences, history and music. First, he got interested in bird watching and while studying the biology he discovered his passion for science, in particular chemistry. Also, at an early age he started playing keyboards and composed his own music. He finished his undergraduate in The Netherlands and then continued his research and studies at San Diego State University and The University of North Carolina at Chapel Hill, where he obtained his PhD, all in chemistry. Next, his professional career found him working for

companies like Procter and Gamble, Unilever, ICI, IFF and S. C. Johnson. These moves brought him back to work and live in Europe and various places in the US on the East Coast and Mid-West. Johan has been visiting and staying in Humboldt County since 1985 after he married Marie. He loves the nature and peace and quiet of Humboldt County. In 2018, he started his consulting company and he works with various multinationals as well as medium-sized and start-up companies. This allows him to work from his home here in Eureka. Johan is also an avid composer and musician, having released several CD's and copyright hundreds of compositions. Johan also established the Johan G. Ployter Living Trust which will add to the Johan Ployter Charitable Fund to enable the fund to continue to support Native American causes as well as KEET TV. (2023)

Opportunity Funds

Opportunity Funds provide unrestricted support, allowing HAF+WRCF to respond to the constantly shifting needs in our region and ensure the long-term sustainability of our organization. These funds are set up by living donors or via contributions from a donor's estate that support discretionary needs within the Foundation and our community. Unrestricted gifts such as those made through the establishment of an opportunity fund are one of the best ways to ensure a fund will remain relevant and impactful many years into the future, even as community needs and priorities change. We are grateful to those who have placed such trust in HAF+WRCF to care for their gift among our Opportunity Funds.

Don & Bettie Albright Endowment Fund

Don grew up in Fresno, CA. He enlisted in the marines, serving as flight engineer on a PBY. Upon his discharge he worked for PG&E for 43 years. Don was a mover and a shaker of the

community, serving as president of Eureka Chamber of Commerce, United Way, Humboldt Economic Development and West Coast Alliance, as well as on the boards of Humboldt Area Foundation, Humboldt Taxpayers League, City of Eureka Visitors & Convention Bureau, Eureka Historical Society, Boy Scouts, Ingomar Club, and as a member of Eureka Downtown Rotary, Northcoast Vintage Aviation, and Marine Corps League. Bruce Cameron believed that "people should do good things for each other" and throughout his life, he lived that intention. An adventurer and sailor from the beginning, Bruce explored many parts of the world

before settling in Arcata. During his life he kayaked the Amazon, spent months in the Malaysian jungles as well as extensive time in Peru, hunting for a lost city. But more than an ordinary traveler, Bruce was foremost a humanitarian, helping to build a school and hospital on the remote islands of Tonga. The people there

remembered Bruce years later and welcomed his boat as he pulled onto the beach with great celebration. Bruce passed away in 2009. Because Bruce loved his life, his home and family, and his natural surroundings, he demonstrated that love by making a last and lasting gift from his estate to support the work of the community through Humboldt Area Foundation. found their way to Arcata where Dave operated a barbershop and served on the city council. Helen became a Campfire Girls leader, inviting as many as 60 girls a week into her home. She also invited the boys who lived at the Presbyterian rooming house to her home for dinner once a month. At age 76, Helen began volunteering at the Presbyterian Thrift Shop, continuing until age 92. Declining health finally restricted Helen to her home where she died on June 2, 2003, leaving behind many grateful friends and admirers. native of Eureka, retired as chief technologist of Humboldt Central Lab in 1991, having been employed by

St. Joseph's Hospital for 50 years. Both Bob and Carol were graduates of HSU and together had eight children. Bob and Carol have made gifts including their life insurance policies, the death benefits of which support the needs of Humboldt County and give something back to the community from which they have received so much. Carol passed away on December 1, 2007. Robert passed away on July 9, 2018. (1993)

Carl Nielsen, a lifelong Arcata resident, was a graduate of Arcata High and had a 43-year career with Seely & Titlow Company. From 1943 to 1946, he served in the army as an army engineer in France and the Philippines. Carl's

beloved mother, Emma, granddaughter of pioneer William Burrill (for whom Burrill Peak, near Weitchpec, is named), was the daughter of Hans Knudsen, whose family owned ranches at Orleans and Somes Bar. Carl spent a lot of time on these ranches, developing an avid interest in the history and customs of the early European settlers and his Indian forebears. He became known as an authority on those subjects, as well as a collector of artifacts from that period. He was recognized as an accomplished woodworker and gunsmith, specializing in early techniques. He was appreciated for his generosity in sharing his knowledge and skills. This is a discretionary fund. (1997)

Sterling F. Paddock Memorial Fund

Sterling Fulmore Paddock was born at home in Eureka on April 11, 1910, weighing just over two pounds. His grandmother's wedding ring fit over his thigh. He was put in a shoe box in the woodstove warming oven, but he was not expected to survive. He passed away 44 days before his 98th birthday on February 27, 2008. He spent his youth working on ranches in Humboldt and Siskiyou counties and enjoyed deer hunting, fishing, and collecting rocks and petrified wood. Later in life, he helped local ranchers by taking care of animals, making wood, or house-sitting for them while they were on vacation. Eureka, California—Nelson, New Zealand Sister Cities Program Fund

The Sister City Program between Eureka and Nelson, New Zealand forges an ongoing, collaborative relationship between peoples of the Humboldt Bay and Tasman Bay areas. Both bay regions were settled in the 1840s--1860s. Recently the economic strength of forestry, fishing, and agriculture---in each region---has been shifting toward cultural tourism, specialty manufacturing, and e-commerce. The primary purpose of the Eureka, CA--Nelson, NZ Sister City program is to share concepts and resources for the enhancement of life quality and the strengthening of global ties. Three areas of emphasis include educational exchanges for all age groups, the pursuit of economic development in both regions, and the exchange and sharing of a full array of the arts, including literary, textile, visual, performing, electronic/digital, and musical arts. Local schools, colleges, community clubs, business groups, chambers of commerce, arts organizations, and others pair with their "sister" counterpart organization for the enrichment of all involved. The Eureka Symphony also works hand in hand with the Humboldt County Office of Education to bring students to special live symphony performances and sends small ensembles to local schools so that students can experience the musicians and instruments in their own classrooms. Live classical music makes life better, one note at a time for players and audiences! The Eureka Symphony Endowment Fund was established in the Symphony's silver anniversary year thanks to the generosity of music lovers who wanted part of their legacy to be a thriving, sustainable orchestra for many years to come. While the Eureka Symphony continues to rely upon ticket sales, small donations, fundraisers and grants to cover the expense of running a regional orchestra and providing its unique educational outreach, this Eureka Symphony Endowment Fund will help ensure the longterm viability of the orchestra and help the Eureka Symphony to refine and expand its ability to

serve its community of musicians, audiences, youth and seniors. The Eureka Symphony will be forever grateful to the legacy donors contributing to this fund and their love of the symphony. (2022)

Henry & Lorine (Mulvany) Hindley were lifelong residents and members of

Humboldt County pioneering families. With their daughter Louise they were an affectionate and happy family. Henry as foreman and Lorine as welder worked for Chicago Bridge and Iron Works during WWII. Later, they purchased the Thompson Brick Yard on Ryan Slough and created Hindley Clay Products. Henry finished his career as the county office manager for the Agricultural Stabilization Bureau. After WWII, John Klingenspor---a Southern California native---was recruited to play basketball at HSU. The on-the-court star "Spider" asked his classmate Louise to dance, a dance that would last for 58 years. John spent the majority of his career as a local school teacher and administrator. They enjoyed a long and especially happy marriage. Louise created this fund to support Humboldt County charities and honor the parents and husband she loved so dearly. (2009)

Historical Sites Society of Arcata Fund

This fund was established with a generous gift from Alex Stillman, long time President of the Historical Sites Society of Arcata (HSSA). HSSA has its

headquarters in the Phillips House Museum at 7th and Union Streets in Arcata. The Phillips House exemplifies a pioneer farmhouse in Arcata during the 1850's. The house embodies Arcata's best example of Greek Revival architecture. As a living museum, visitors get to witness scenes from daily life between 1854 and 1932. Tours of the Phillips House are available 2:00 - 4:00 p.m. every Sunday or by appointment. Call (707) 822-4722. (2024)

Joe Bob & Lily Hitchcock Fund for Animals

Since moving to Calistoga in 1998, the Hitchcocks have been active in all manner of animal welfare services, supporting the Calistoga Cat Action Team (C-CAT) and Wine Country Animal Lovers (WCAL). They also support organizations such as Best Friends in Kanab, Utah, the Marine Mammal Center in Sausalito, Wolf Haven in Tenino, WA, the Elephant Sanctuary in Tennessee, We Care Animal Rescue in St. Helena, CA, and many others. Sadly, the Hitchcocks lost their two cats, Potato Bug and Petey Pie not long ago, but continue to get their "kittie fix" by providing foster care for cats while forever homes are being found. 100% of all contributions go to services. The couple have helped spay/neuter over 400 feral felines running wild in Calistoga and a feral cat is a rarity now. (2017)

Martha Hoffmann Memorial Fund

Martha and William "Bill" Hoffman moved to California in 1990 when they decided that Arizona was too hot for their liking. They took a drive in their RV looking for "just the right place." It was only when they drove through Fortuna that Martha declared, "This is where

our new home will be." They became a part of Fortuna and shared their love of the area with their toy poodle, Heidi. Their yard was filled with beautiful exotic plants and flowers. Martha and Bill's generosity enabled St. Joseph Hospital of Eureka to completely overhaul their emergency room. The couple was delighted to be able to spend the last years of their lives giving back to the community that brought them so much joy. Martha was preceded in death by her daughter Deborah, and her husband Bill in 2013. Martha continued to live a full and interesting life at home until her passing in early 2016. (2016)

HAF+WRCF | Redwood Region Climate & Community Resilience (CORE) Hub

The Redwood CORE Hub provides community engagement, technical assistance and an equity and justice lens to help our community transition our built and natural systems to a decarbonized and resilient future. The CORE Hub helps convene dialogues and distribute resources to communities as they work to reorganize and relocate built and natural systems in better cooperation with human needs, and to document the processes so local communities and other rural

regions and Tribal Nations have a recipe for their own decarbonized resilience. Donations to the CORE Hub fund support this work. (2021)

Humboldt Bay Habitat Enhancement Fund

Humboldt Bay has been an industrial port for decades

and there has been a great deal of harm done to the bay-associated habitat---primarily wetlands---as a result of this industrial activity. Currently, Humboldt Bay has only 4% of its native salt marsh habitat remaining, and much of the intertidal wetland that historically surrounded the bay has been filled and developed. By establishing this fund, the hope is to reverse that trend. Grants from the Humboldt Bay Habitat Enhancement Fund are distributed to projects that focus on direct restoration of various wetland habitats around the bay, improving the tidal prism around the bay by removing or replacing tide gates, and water quality sampling related to cleaning up contaminated wetland areas around Humboldt Bay. (2008)

Humboldt Bay Recreation Enhancement & Water Quality Fund

The Humboldt Bay Recreation Enhancement & Water Quality Fund supports community-oriented projects designed to improve public access, the quality of marine or aquatic recreation, research and public education, as well as projects to improve water quality. (1995)

Humboldt Bay Rowing Association Program Fund

The purpose of the Humboldt Bay Rowing Association Program Fund is to support the development and growth of the sport of rowing in Humboldt County, specifically for youth and the community at large. The

Too many years of deferred maintenance and neglect took a toll on facilities at Humboldt Lagoons State Park, and during the 2012

budget cuts the two primitive campgrounds were closed. Through a grassroots community effort the Stone Lagoon boat-in campground reopened in 2014 and the hike-in sites at Dry Lagoon reopened in 2015. This fund is stipulated for maintenance, interpretation, education, capital improvements, and campground furniture such as bear boxes, picnic tables, and fire rings. Humboldt Wildlife & Habitat Conservation Fund

Humboldt County is biologically diverse and still supports healthy populations of a wide variety of plants and animals, including rare, threatened, and endangered

species. Many of us who live here chose it for that very fact. Yet, a long history of uncontrolled resource consumption, combined with current pressures such as a growing human population, increasing cannabis cultivation, aquaculture, renewable energy projects, and climate change, have caused and will continue to cause damage that needs to be remedied, mitigated, and prevented in order to maintain that diversity. The Humboldt Wildlife and Habitat Conservation Fund was established by local author, biologist, and educator, Ken Burton, in 2022 to support environmental and conservation efforts in the county, with an emphasis on needs related to wildlife and wildlife habitat. Projects that will have direct, measurable effects, such as invasive species control, fish passage enhancement, habitat restoration, and reintroductions, are preferred. Please consider donating to this fund to help make Humboldt County an even better home for its wildlife – and by extension its human inhabitants! (2022)

HLF | Sally Upatisinga Mystery Books Fund

It started with the Bobbsey Twins, who solved small mysteries while enjoying the seashore and roaming the neighborhood. She graduated to Nancy Drew, leisurely enjoying her

own summer days while reading in the warm Oregon countryside. Sally Upatisinga freely admits that reading mysteries transported her to many lands. The complete works of Agatha Christie were followed over the years by a steady diet of the greats and most everything in between. A sampling of her favorites include Lord Peter Wimsey (Oxford and literature); the Cadfael Chronicles (12th Century England); Dick Francis (English jockey); and Eliot Pattison (Tibet and China). Sally enjoys the genre for nuance of place and history and pure reading pleasure. She checks them out of the library with such ferocity that her husband, Vis Upatisinga, established the fund to keep the books coming, and even more, to honor Sally and her lifelong passion and commitment to the mission of the public library. Roy & Billie Johnson Endowment Fund

This fund was established with the estate of Billie Hemisphere Johnson, born in June 1917 and passed away in January 2019. Billie was a commercial fisherwoman by trade with an incredibly strong will who weathered life's storms with seeming ease. Billie sought a good challenge, illustrated in later life by her preference for blackjack over slots during her relished trips to Blue Lake Casino. She loved a good joke, and if one didn't have a sense of humor, Billie tended to be uninterested. She was a self-professed "trouble-maker". That said, Billie harbored a kind and compassionate soul. The purpose of the fund is to provide for: care for the sick and dying; protection, well-being, and enjoyment of senior citizens in Humboldt County; care for children with neuromusculoskeletal conditions, burn injuries, and other special healthcare needs; and understanding and treatment of childhood cancer and other life-threatening diseases. Through the Partners in Caring Fund, donors can build upon Mad River's generous gift to the community. Donations to the Partners in Caring Fund support services for patients in need. For example, the fund helps the hospital provide oral surgeries for low-income pediatric patients referred by local clinics, benefiting 30 children per year. Donations to this designated expendable fund are used directly for indigent patient care, not for administrative or overhead costs. The Partners in Caring fund makes a difference in our community by ensuring healthcare for those who cannot afford it, allowing donors to become true partners in caring for our friends and neighbors in need. Mandy & Molly Fund

Jim and Betty Mills established this fund to support the Sequoia Humane Society, reflecting the love and joy so many receive from owning a pet. Betty reports: "Many

pets shared our home during the fifty-some years we have been married and all were memorable. The last two dogs we owned were a mixture of black Labradors and who knows what else? Mandy came into our lives in 1972 and left in 1987. Molly arrived in 1982 and departed in 1997. The period that their lives overlapped was full of surprises, laughter, and wonder at their delightful antics. If we threw a stick into the pond, Molly would swim out to get it and surrender it to Mandy who would bring it to us to throw again. Suffice it to say that our lives were greatly enriched by these two very intelligent, lovable, friendly dogs and we miss them immensely." (1998)

Sara Goosby and Marie had a special relationship, so it was only fitting that when Marie's family decided to donate money for a terrace in her honor, the placement of it would be in line with Sara's Garden. Marie's Terrace, with electricity and shade cloth covering, promises to provide an ideal setting for small gatherings and musical concerts. As per Marie's wishes, the garden area will be planted with California native plants. The purpose and intent of the Marie's Terrace Fund is to ensure that funds are available over the next 20 years and beyond for its upkeep and growth. (2020)

North Coast Environmental History Resource Recovery & Preservation Fund

From the 1990s through 2004, hundreds of northwest California citizens protested destructive logging practices and urged regulatory agencies to promote

This fund helps families caught in the tragedy of a missing or murdered love one to post rewards, which brings public attention to the case and a greater possibility of solving the crime. Rael Family Scholarship Fund

The Rael family established this scholarship to support a Latino student who demonstrates academic potential and who has a history of community involvement. Dennis Rael, as we know from the

delectables served at Los Bagels, is of mixed heritage: his mother was Jewish and his father, Chicano. His father experienced discrimination as a child because he was Spanish-speaking. While working as a printer in his late 40s, he turned this discrimination around by going back to school and obtaining a teaching credential. He was hired as a teacher because among his qualifications was the ability to speak the language for which he once was ridiculed. The Rael family believes that people who have access to education can increase their potential. They take pride in their heritage and feel fortunate to be able to encourage others to also take pride in who they are and further their education. (2004)

Nick and Lisa Rail Music Fund

The Nick and Lisa Rail Music Fund was established in 2018 to support music and the arts in Del Norte County, focusing first and foremost on music education in public schools, especially instrumental. Immediate goals

are to improve the scope and quality of band instruments for all of the elementary, junior high and high school music programs. Ongoing goals are to continue building this inventory and providing the resources to maintain it. The long term goal is the construction of a performing arts center on the high school campus. The arts are alive and well in Crescent City, yet there isn't a proper stage anywhere in the county for groups to perform. The school district and community at large deserves a modern venue to showcase the talents of our youth, whether band, choir, dance, or theater. The Rails welcome your help in achieving this goal. (2018)

RCRC Client Benefit Fund

The Client Benefit Fund is a nonprofit fund designed to improve the lives of the people who are clients of the Redwood Coast Regional Center through small, individual grants for

needs that cannot be met through any other existing program or agency. The fund is designated for individuals with developmental disabilities in Humboldt, Mendocino, Lake, and Del Norte counties. Some of the possible creative uses of the individual grants could include specific housing needs, one-time moving needs, emergency travel needs, and start-up seed money for programs fostering independence in life-skills,

Redwood Art Association Accessibility Fund

The primary purpose and intent of the Redwood Art Association Accessibility Fund is to expeditiously raise the necessary

funds to install a chair lift, making it possible for disabled and mobility-impaired artists, members and visitors to enjoy full access to the second-floor galleries, benefiting all who partake in the RAA. All donations received will go toward that end goal and to increasing all levels of accessibility at the RAA. In 2012 the RAA purchased and renovated a Classical Revival building at 603 F Street in Eureka, designed in 1925 by F.T. Georgeson, to serve as a headquarters and exhibition space, open to the public. Those coming to our gallery with physical disabilities or mobility impairments have not been able to access gallery spaces on the second floor easily or at all. Other ADA compliant renovations have been made or are currently underway to make accessible all personal gallery spaces, restrooms, and entry/exits to the entire community and visiting population. The need for this access is acute. Senior citizens, many of whom experience mobility impairment to some degree, represent a good portion of the RAA's members and visitors. At present, some docents are unable to access the building's second-floor exhibition spaces making it difficult to provide volunteer staffing. Since all personal gallery spaces that are available to rent are located on the building's second floor, the installation of a chair lift will mean that all RAA member and guest artists will be able to enjoy unhindered access to exhibition opportunities. Purchase and Installation of a chair lift at the RAA has been estimated to cost \$135,000. (2022)

We bring artistic dialogue and collaboration with the membership, local government, and other creative organizations and outside communities. Ted Souza Memorial Fisheries Fund

The Ted Souza Memorial Fisheries Fund was established by the Friends of Del Norte to commemorate a dedicated life of serving as a longtime board member and

treasurer. Ted was an avid outdoorsman with a true love for the Smith River. He was a fisherman who committed his life to saving and restoring our historic salmon and steelhead runs on the Smith River. Ted worked hard to keep state fishing regulations commensurate with the decline in fish runs. He supported laws like no bait fishing and catch and release only policies. With his youthful energy and pragmatic outlook, Ted stayed actively involved in local environmental issues into his 90s, an inspiration to us all. Ted's personal motto was: "It is OK to grow older, just don't get old." These funds will be used to further Ted's interests in fisheries' habitat restoration and scientific research to help further the health of salmon and steelhead populations on the Smith and other local rivers. Richard D. (Dick) Spadoni Endowment Fund for Dogs

Eureka native Dick Spadoni graduated with the second class of St. Bernard's High School, earned a BA in biological sciences and a master's degree in natural sciences from San Jose State University and became an

entomologist. He worked for the US Public Health Service and UC Berkeley School of Public Health before spending 28 years as a happy agricultural inspector with the Humboldt County Department of Agriculture. Animals were always Dick's passion. He nearly lost his job because he would take his "buddy" in an official vehicle when on assignment. Sincere appreciation goes to his boss, Agricultural Commissioner John E. Falkenstrom, for his patience. Nothing bothered Dick more than seeing an abused or neglected animal. His fund provides for the medical needs of dogs whose owners are unable to provide treatment for them and for dogs that are abandoned or neglected. It also supports Humboldt County guide dog programs. Dick passed away on August 15, 2010. (2010)

Trinidad Coastal Land Trust Fund

In 1978 the Trinidad Coastal Land Trust (formerly Humboldt North Coast Land Trust)

Greg Veach Memorial Fund

Gregory Veach showed interest in music at a young age. He started to play piano pieces he heard his two older sisters practicing. Soon after that, his formal piano lessons began a

dedication to music that lasted his lifetime. In elementary school, Greg played the string bass in orchestra until his interest in wind instruments evolved and he joined the marching band. Playing the tenor or the alto saxophone with other students in the school band was the best discipline and social outlet for Greg growing up. After high school he joined several local bands playing tenor sax and the bass guitar. The music changed to rock and reggae style, but the core enjoyment and sharing were still the driving force of his art. This fund fulfills Greg's desire to support and encourage children to explore and develop their potential in music and life. (2007)

Vellis Family Endowed Scholarship Fund

This fund was created with the remainder of the Charitable Remainder Trust established by Lewis and Jane Vellis in 2000. The fund serves two

distinct educational goals. While one objective assists students directly, the other benefits a community college. The first area of interest is to provide scholarships for juniors and seniors in high school served by College of the Redwoods and its branches. The intent is to expand their curricula so that they can become adults in the workforce, motivated to attain a higher level of proficiency and work toward a stated goal. This opportunity may continue through a bachelor's degree in a state college. The second purpose is to assist the Santa Barbara City College Continuing Education Division to develop and sustain courses and seminar series featuring nationally known speakers, primarily in the field of transnational psychology such as the "Mind/Supermind" series. Our guidelines now are that peace can best be achieved around the world when people have shelter, food, water, medical services, and freedom from fear. We support worldwide organizations such as Doctors Without Borders, Red Cross, Southern Poverty Law Center, FINCA, and Amnesty International. Much of our support is local in Humboldt County, including Food For People, Rape Crisis, Hospice, Breast and GYN Health, Arcata House, and the Eureka Rescue Mission. 100% of all donations go to services. Watershed Fund

Compliant Farms recognizes the opportunity for our communities to move beyond the trend of boom and bust natural resource extraction. Guided by permaculture principles and focusing on individual efforts

that have great, cumulative effects, as a community we can participate in the process of adaptive land management for a regenerative future. Compliant Farms was formed as the cultural, regulatory, and ecological worlds of small, private cannabis farms collided. Through the design and implementation of site-specific management plans they facilitate an approach for the community to become better land stewards. In business plan and process, through education and resource sharing, from the generosity of their clients---cannabis farmers---the Watershed Fund was born. Today, while maintaining victim assistance programs, it also serves the community with youth services and teen centers, emergency homeless assistance, childcare resources, child abuse prevention, mentoring, in-home parent aides, and state preschools. Sally Johannsen Advanced Health Scholarship Fund

Sally Johannsen has been an active member of the Trinity County community since 1970. She left her original career as a nurse to devote her life to raising her family and running Cedar Stock Resort with her husband Cliff. However, caring for others' health is simply a part of who she is, and although she was not able to practice as a nurse again, her caring support is felt by all who know her. Over the years she has become interested in alternative healthcare options available. This fund was established by her loving family as a tribute to the many lives she has cared for throughout her life and the amazing woman she has become. We look forward to her participation in this fund and her continued excitement to support others willing to dedicate their lives to healing in alternative ways. (2015)

Kids and Old Geezers Recreation Fund

Rich Velasquez established this fund to promote athletics in Trinity County at the elementary school level. His intent was to offer young people a way to direct their energy in a positive manner. This fund will be used towards team sports and yoga, tumbling, gymnastics, and other alternative activities. Teams and individuals alike that may not have the means to be participants are eligible for this fund. Rich believes all young people should have the opportunity to develop their physical abilities and to experience what it is to be a team player. No one should be left out. The fund should also be made available to support the health and emotional care of the elderly. (2021)

Mountain Valley Youth Endowment Fund

The Mountain Valley Youth Endowment Fund was created through two major gifts. An anonymous donor visited Hayfork and, impressed by the urgency of the need and the efficiency of the already-established Mountain Valley Youth Fund, gave the first gift to create this endowment. Marion and the late Victor Payse, Barbara Stokely's sister and brother-in-law, donated a matching gift of \$5,000. The idea of an endowment to ensure funds in perpetuity for needy children in the area appealed to the Payeses. They are both retired educators who have contributed not only money over the years, but also their time, energies, and talents to enhance the community where they live. Although they have no children of their own, they decided to help the children of Hayfork, knowing that the need was great. A significant anonymous contribution was made by a local resident. The fund has now reached a level that supports its annual budget. (1998)

Mountain Valley Youth Fund

The Mountain Valley Youth Fund, an expendable fund within the Trinity Trust, was established with an initial gift from Barbara L. Stokely, a late resident of Pebble Beach, CA, to serve the health, educational, and/or welfare needs of youth from birth to age 18 who live within the Mountain Valley Unified School District. She has a son, a daughter-in-law, and two grandchildren who formerly lived in Hayfork, within the school district. Barbara held a PhD in educational psychology from USC. Before her retirement she was an educational psychologist and a marriage and family therapist. (1997)

Trinity County Library Benefit Endowment Fund

This fund is intended to provide a supplemental income to address the library's present and future needs, such as keeping basic programs functioning during low budget periods and supporting outreach and enrichment programs. (2004)

Trinity County Library Benefit Fund

Two funds were established in 2004 in response to drastic reductions to the county library budget. To ensure the survival of the three public libraries serving Trinity County, the funds are administered by a steering committee of the Trinity County Friends of the Library. Donations may be made to both funds. The library's immediate needs will be served by the Trinity County Library Benefit Fund, including regular contributions from library supporters and proceeds from fundraising benefits. Present unmet library needs, such as building the library's database and providing substitute staff to keep facilities open, are being subsidized from this fund. The Friends continue to raise additional funds to spend directly on books, subscriptions, equipment, and supplies. (2004)

Trinity High School Athletics Pledge for the Pack Fund

This fund was created to enhance the athletic program offerings at Trinity High School while helping to offset the annual operating costs of the athletic department. Expenditures from the fund are made for such items as athletic equipment, uniforms, officials' and tournament entry fees, and league dues. All donations will directly benefit the THS Athletic Department and the students it serves. (2009)

Trinity County Food Assistance Program Fund

Trinity County Food Bank is located in rural Northern California, one of the poorest counties in the state. The County is 85% Federal National Forest land, with isolated pocket communities. The Food Bank distributes commodities to an average of 1200 families each month. Our distribution sites are in every community of Trinity County. All of the communities, except for two, are food deserts, with limited access to affordable and nutritious food. The Food Bank also distributes 400 senior boxes on average every month. (2021)

Trinity Trust Expendable Fund

Thanks to the generosity of local donors, the Trinity Trust was able to establish an expendable fund to respond to important needs throughout Trinity County, such as helping deserving young people experience summer camp. (2005)

Weaverville Cemeteries Endowment Fund

The Weaverville Cemeteries Endowment Fund was established in 2007 to help support and preserve the 150-year-old Weaverville Cemetery and potentially other

public historic cemeteries in the area of Weaverville. The county of Trinity no longer maintains these. Initial endowment gifts were contributed by reflective, good-hearted, and thoughtful individuals, families, businesses, community advocacy groups, and service organizations. The Weaverville Cemeteries Endowment will annually and in perpetuity provide funding for such purposes as replacement of deteriorating headstones, maintenance, care and beautification of public cemetery areas, and education of the community regarding the cemeteries' pioneer history. (2007)

Young Family Trust

The Young Family Trust honors the Young family heritage with roots deep in Trinity County history. The trust supports the work of the Young Family Ranch (YFR), a 3-acre community-trust farmstead in the heart of Weaverville's historic district. YFR is the perfect venue for free educational programs on gardening, sustainable small-farm practices, foods, home-craft, and natural resources conservation. With garden areas, fruit trees, pastures, barn, paddocks,

and a farmhouse, YFR was deeded for community benefit and is guided by a volunteer board. It hosts an annual summer day camp, community plant and seed exchange, fiber and textile arts fair, and free learning events for all ages. YFR serves the 4-H Youth Development Program with space for livestock, poultry, and learning. Its ranch house is available for community groups, workshops, and trainings. Proximity to Weaverville Community Forest and the trail system add to YFR's appeal as a learning center. (2001)
